Hon. Edward R. B. McGee	1928–1929
Hon. Edward R. B. McGee	1929–1930

Inaugural Address

Delivered by the Mayor, Hon. Edward R. B. McGee

To the Honorable City Council of Berlin:

Through the very kind consideration of the citizens of Berlin, I am again privileged to address you, as Mayor, on city affairs. I am deeply grateful to all those who showed such appreciation of my last year's efforts. I wish to thank each and every one for their manifestation of esteem, and I hope that my conduct of the office for the coming year will be such as to merit this loyalty.

There are no new members elected to our Council this year, as all of the outgoing councilmen were reelected for another term. This also I appreciate, because I know that you were all loyal and good workers during my last term, and I am sure I can continue to depend upon you to take up your share of the burdens of city government. I congratulate each and every one of you on your reelection. The substantial majority which you received is an indication of the esteem in which you are held in your respective wards.

You are all familiar with the problems which will confront us during the coming year, and I will not attempt to elaborate upon them at this time. I shall mention only some of the unfinished and new improvements which I favor. The finances of the city are in excellent shape, and there is no need for us to enter into a retrenchment program, for we are, happily, in a position to make further progress for the betterment of our city and its citizens.

PUBLIC WORKS

Last year, I recommended that upper Main Street, from the Berlin Mills branch to the new cement road, be covered with kyrock, in order to place upper Main Street in as good condition as the down-town section. As the charter of the Berlin Street Railway requires that they shall contribute to improvements on Main Street along their right of way, it was necessary last year to forego this necessary improvement because the Berlin Street Railway suffered such heavy damages on account of the flood, and it would have been a hardship to have required them to have undertaken this new expenditure. There is no reason, however, why,

this year, this work should not be done. Work has already been started on widening of the main road at Cascade, and this work should be rushed to an early completion. To complete this good work, I am in favor of widening Glen Avenue from the Glen Junction Crossing, so-called, to Green Square, if this can be brought about without a too great expenditure of money, and I recommend that the Council thoroughly investigate this proposition at an early date and that we endeavor to find some means of bringing this much needed improvement about.

If all of these improvements on our Main Street are carried out, much of the good will be lost sight of in view of the fact that this street is lined with telephone and electric light poles which ought to be removed. I understand that this improvement would cost the several companies a considerable sum of money and that they may not be in a position at this date to cooperate with us in bringing this about in the near future, but it is possible that, in order to have this work done quickly, the city might cooperate with the several companies by floating a bond issue for the purpose of loaning the money to these several companies for such a term of time as they would need the same. While I have not worked out the details of this plan, I believe that it should have our immediate consideration and that a conference between the Council and the several companies should be brought about as soon as possible to see if a plan can not be formulated which is feasible and practical.

PUBLIC SCHOOLS

With the opening of the new East Side school last year, I believe that the school facilities are now adequate for every part of the city. There is plenty of room in our schools at the present time, and every child is receiving the best of attention under sanitary and healthful conditions.

FIRE DEPARTMENT

While our fire department is well equipped and functioning in an excellent manner, I believe that, in order to bring the equipment up to one hundred per cent., an auto should be purchased for this department to be used for the periodical inspection of hydrants and fire hazards.

WATER WORKS

As it is now possible to get high pressure service mains, I recommend that a high pressure main be run to Ramsey Hill for the purpose of furnishing domestic service and fire protection. This would do away with the pumping station and tank now

serving this community and would serve it in a much more efficient manner. The saving made by doing away with the pumping station would, in a few years, pay for the installation of this improvement. I would also recommend that sewers to Ramsey Hill be laid at the same time the main is being laid. The use of the same ditch for both pipes would be a material saving in the installation of sewer facilities for that district.

There seems to be a general opinion among the consumers that our water supply is not pure and wholesome. I wish to state that this water has been tested frequently by the state board of health and that our reports have always been that the water is pure and free from contamination. The citizens of this city need have no fear of using it for drinking purposes. The slight discoloration which is found in the water is due solely to the vegetation that was growing over the area that was flooded for the reservoir. This discoloration will clear up, in my opinion, within a couple of years, or as soon as the water kills off the life of the vegetation. There is no question that, when this has happened, the water will be as clear as spring water.

NEEDED PUBLIC IMPROVEMENTS

Considerable work has been done during the past year in preparation for the city to establish an airport. Surveys have been made, and I believe the work has progressed to such a point that an airport ought to be laid out and completed this year.

A public comfort station ought to be established in the basement of the City Building, and a community dining room should be provided in the City Building for the convenience of the citizens. Both of these improvements can be provided at small expense and will utilize vacant space in the City Hall which should be used for the convenience and enjoyment of the people of the city.

Berlin is unfortunate in not having within the confines of the city bodies of water suitable for the enjoyment of water sports. The children are particularly unfortunate in not having an "old swimming hole" of their own. I believe that nothing we could give the children would be more appreciated by them than a suitable place for them to swim, and I recommend that two municipal-owned swimming pools be constructed during this year—one at Berlin Mills Village and another over on the Jericho Road.

BERLIN CENTENNIAL

As it is our intention to celebrate the one hundredth anniversary of the founding of Berlin during the first week in July, next,

I believe we should make this celebration something worth while. It is a proud event in the history of Berlin, and a celebration should be had that would leave an enduring remembrance in the minds of those fortunate enough to participate in it.

In order to do justice to a celebration of this kind, it takes money, and I recommend that the City Council appropriate the sum of ten thousand dollars for this purpose.

Further, I urge and request every person in the city to take part in this celebration, to help by giving his, or her, time and talents, and by contributing financially to the Centennial Committee, which has already been appointed, to carry on this celebration.

Let us make it something worth while and something that will attract the attention of the whole country to our wonderful city and the success which it has achieved in the past one hundred years.

CONCLUSION

All of the several matters which I have briefly called to your attention, if carried out, will make our city a better city to live in and will make our citizens happier.

We will be called upon to meet other problems, but from my past experience with this honorable body, I know that you will be ever ready to give of your time and talents to solve them.

I thank you for the loyalty and consideration shown me in the past, and I look forward to another happy, busy year with you.

Respectfully submitted,

EDWARD R. B. McGEE, Mayor.

Orders

In the year of our Lord one thousand nine hundred and twenty nine.

An order to Berlin Water Works.

Ordered, by a vote of the City Council taken May 28th, 1929, that the following hydrants be placed:

One at the corner of Grafton and Lancaster Streets.

One on the Jericho Road near the City Incinerator.

One at the corner of Mt. Forist Street and Third Avenue.

One at the corner of River and Willard Streets.

One at the upper end of Church Street.

HENRY M. MOFFETT,
City Clerk.

H. GOSSELIN,
Chairman Committee on Fire Department.

In the year of our Lord one thousand nine hundred and twenty-nine.

Deputy City Clerk.

In the year of our Lord one thousand nine hundred and twenty-nine.

A RESOLUTION relating to the abatement of taxes, and the exemption from taxation, on certain property belonging to the L'Hopital St. Louis de Berlin, located in said Berlin.

Resolved by the City Council of the City of Berlin as follows:

WHEREAS, under and by virtue of the provisions of Section 22 of Chapter 60 of the Public Laws of the State of New Hampshire, it is provided that the personal and real estate of corporations and institutions devoted to educational, charitable and religious purposes, shall be exempt from taxation, provided none of the income or profits of the business of said corporations or institutions are divided among the stockholders or members, or used or appropriated for other than educational, charitable or religious purposes, and

WHEREAS such exemption is limited to one hundred and fifty thousand dollars, and

WHEREAS all of the property of L'Hopital St. Louis de Berlin is not of that value, and

WHEREAS the said L'Hopital St. Louis is a charitable organization, and no profits are distributed to its members, and

WHEREAS the said L'Hopital St. Louis de Berlin has recently acquired a piece of property with the buildings thereon, situated on the corner of School and Cambridge Streets, in said Berlin, and practically adjoining the present property of said hospital, and

WHEREAS it is intended to use and occupy said property for purposes incidental to and in connection with said hospital, and not receive any profits therefrom, and

WHEREAS said property above mentioned has been assessed for the year 1929, and it is the feeling of the Mayor and City Council that said assessment, and the tax levied in consequence thereof and thereby should be abated, and said property exempted from taxation. Now, therefore, be it

RESOLVED that the property recently acquired by the said L'Hopital St. Louis de Berlin, on the streets above referred to, and to be used in connection with said hospital, be, and hereby is, exempt from taxation, and be it further

RESOLVED that the Board of Assessors of said Berlin, be, and are hereby authorized to abate the amount of the tax levied on said property for the year 1929.

Passed December 17, 1929.

Approved,

J. ARTHUR SULLIVAN,
Mayor, pro. tem.

Attest:

H. M. MOFFETT,
City Clerk.

Department Reports

Report of Library Trustees

To His Honor, the Mayor, and City Council of the City of Berlin:

Our yearly report, together with the Treasurer's Report, and Librarian's Report is herewith submitted:

That our library ranks high among other New Hampshire libraries is shown from the report of the meeting of the New Hampshire Library Association at Concord, this summer. That the library is a growing institution is evident from the circulation statistics submitted in the Librarian's Report. That the service rendered library patrons is appreciated is shown by the ever increasing number of library borrowers. That more books must be added to the library shelves to give these new patrons more reading material, and that more shelf room is necessary to accommodate these added books is self-evident.

New steel book cases have been added from year to year which have greatly facilitated the shelving problem of the library, but the library is now in such a crowded condition that there is no available space for more book cases.

Reading Room and Reference Rooms are crowded daily. The Children's Room has long ceased to accommodate the ever increasing throng of eager children asking for a "new book."

In short, the library has outgrown its present quarters. The building is old and in poor condition. Each year the repair bills are growing larger.

It is impossible to give the public a maximum degree of service in cramped and crowded quarters and it is now apparent that a new library is a pressing and imperative necessity.

The Board of Library Trustees have endeavored, in every way, to keep the library in good condition, but now respectfully recommend that some action be taken in the matter of a new building.

Respectfully submitted,

JOHN J. SMITH,
W. W. BURLINGAME,
MARGARET PINGREE,
Board of Trustees.

JOHN J. SMITH,
Treasurer.

Librarian's Report

To the Board of Trustees of the Berlin Public Library:

The thirty-seventh annual report of the librarian is herewith submitted:

The year 1929 proved to be the busiest in the history of the library. Over one hundred thousand volumes were circulated from the loan desk; 740 new borrowers registered; 1,178 new volumes were added to our shelves.

During Centennial week in July, Miss Hallie Wilson conducted a display of antiques in the library, which proved to be of great interest to both local and out-of-town visitors. The librarians were effectively costumed in old fashioned gowns during the week and the library was used as a rest room.

In September the librarian attended the library convention at Concord, New Hampshire. Owing to the excellent record achieved in 1928, all her expenses were defrayed by the New Hampshire Library Association who tendered to her a certificate for excellent service in library work.

A great deal of work was accomplished in the Juvenile Department during the year. A complete inventory and overhauling of the children's books resulted in the discarding, and subsequent replacement, of many books which were too badly damaged to circulate any longer.

Children's Book Week was suitably observed with a special program, including story hours, recitations, dialogues, a "Sun-Flower Drill." and a special Book Week Play written and directed by the librarian. There was a large attendance at all programs.

We received several generous gifts from library patrons. We acknowledge, with thanks, gifts from The Daughters of Isabella, Mrs. W. R. Brown and Mr. Downing P. Brown. Some valuable and popular books were placed in the library by the above named donors, and such interest and appreciation is an added incentive to the efficient service and loyal, courteous attention which we endeavor to accord all library patrons.

Respectfully submitted,

AGNES F. MAILMAN,

Librarian.

Assessors' Report

Berlin, N. H., January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:

We submit herewith our report for the year ending January 31, 1930, the same being the thirty-third annual report of the City of Berlin.

The inventory of all taxable property shows an increase of $483, 081.00 over that of 1928.

The following is the valuation for the year 1929:

Land and buildings	$10,480,370.00
Cows	10,655.00
Oxen	390.00
Sheep	40.00
Hogs	40.00
Carriages	4,900.00
Horses	23,340.00
Neat Stock	210.00
Oil tanks and pumps	29,760.00
Stock in trade	3,266,884.00
Mills and machinery	9,374,690.00
Total	$23,191,279.00

We wish to express our appreciation for the courtesy and assistance given us during the year by His Honor, the Mayor, and other members of the City Government.

Respectfully submitted,

GILMAN CHAPMAN,
GEO. U. DUVAL,
ALFRED LAUZIERE,
Assessors.

Fire Department

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—I have the honor of submitting herewith the annual report of the Fire Department of the City of Berlin for the year ending December 31st, 1929.

During the year the department answered calls for aid from outside districts on eight occasions; Gorham four, Jefferson one, West Milan one, Stark one and Errol one.

In our own district we answered 223 still alarms, 38 bell alarms making a total of 269 alarms, 13 of this number found false or unnecessary.

In answering these alarms we travelled 570.1 miles, worked 113 hours and 34 minutes, used 15400 feet of 2½ inch fire hose, 24050 feet of chemical hose, 3195 feet of ladders, 258 gallons of chemical and 4657 gallons of water with booster pump.

The fire loss for the year was $15144.78 on buildings and $6011.17 on contents, making a total of $21,155.95.

During the year the insurance rates were dropped and the City went from Class A. to Class A1. This means a very material saving to the property owners of the City. That the City may continue to save by this lower rate and also make possible a lower rate, I wish to recommend that the personnel of the department be increased and that the Paige Combination truck be replaced with a modern pumping engine.

A statement in detail of all fires for which damage was claimed follows, with the names of owners and occupants.

In closing I wish to express my thanks to the Mayor, City Council, Fire Committee, and residents of Berlin for the many favors and courtesies shown me in the performance of my duties.

Respectfully submitted,

P. J. THOMAS,
Chief Engineer.

REPORT OF FIRES

Jan. 5. 2½ story frame tenement. Owned by L. Iafrati. Occupied by same and others. Value of building $4000.00. Insurance upon $2000.00. Damage $19.00. Insurance paid $19.00. Cause of fire, dirty chimney.

Jan. 16. 2½ story frame residence. Owned and occupied by G. A. St. Germaine. Value of building $10,000.00. Insurance upon $4500.00. Damage $263.00. Insurance paid $263.00. Value of contents $4000.00. Insurance upon $2000.00. Damage $65.10. Insurance paid $65.10. Cause of fire, flooded oil burner.

Jan. 21. 1½ story residence. Owned and occupied by Mrs. Treamer. Value of building $4500.00. Insurance upon $2000.00. Damage $54.00. Insurance paid $54.00. Cause of fire. dirty chimney.

Jan. 21. 1 story store. Owned by A. Hamel. Occupied by L. Fontaine. Value of building $1000.00. Insurance upon $500.00. Damage $105.30. Insurance paid $105.30. Value of contents owned by L. Fontaine $1000.00. Insurance upon $700.00. Damage $125.79. Insurance paid $125.79 Cause of fire unknown

Jan. 26. 2½ story tenement. Owned by G. Meyers. Occupied by various parties. Value of contents owned by A. Peloquin $1500.00. Insurance upon $1000.00. Damage $1000.00. Insurance paid $1000.00. Cause of fire overheated stove

Jan. 29. 2 story brick tenement. Owned by A. Rozek. Occupied by various parties. Value of building $35,000.00. Insurance upon $28,000.00. Damage $147.00. Insurance paid $147.00. Value of contents owned by A. Bisson $9000.00. Insurance upon $2500.00. Damage $5.70. Insurance paid $5.70. Value of contents owned by D. Labuon $10,000.00 Insurance upon $4200.00. Damage $20.00. Insurance paid $20.00. Cause of fire short circuit.

Feb. 3. 2½ story rooming house. Owned and occupied by J. Smith. Value of contents $2000.00. Insurance upon $800.00. Damage $25.00. Insurance paid $25.00 Cause of fire, smoking in bed.

Feb. 7. 2 story residence. Owned and occupied by A. Bouchard. Value of building $10,000.00. Insurance upon $7000.00. Damage $7.00. Insurance paid $7.00 Value of contents $2000.00. Insurance upon $1500.00. Damage $5.50. Insurance paid $5.50. Cause of fire unknown.

Feb. 7. 3 story tenement. Owned by Mrs. A. White. Occu-

pied by various parties. Value of building $8000.00. Insurance upon $6000.00. Damage $22.35. Insurance paid $22.35. Cause of fire, defective chimney.

Feb. 9. 1½ story residence. Owned and occupied by Mrs. P. Smyth. Value of building $5000.00. Insurance upon $1800.00. Damage $20.00. Insurance paid $20.00. Cause of fire, flooded oil burner.

Feb. 13. 2½ story residence. Owned and occupied by J. Croteau. Value of building $8000.00. Insurance upon $6000.00. Damage $30.00. Insurance paid $30.00. Cause of fire, dirty chimney.

Feb. 19. 3 story tenement. Owned by Fred Bell. Occupied by various parties. Value of building $8000.00. Insurance upon $5000.00. Damage $15.00. Insurance paid $15.00. Cause of fire, dirty chimney.

Feb. 23. 2½ story residence. Owned and occupied by M. Isaacson. Value of building $8000.00. Insurance upon $6000.00. Damage $27.00. Insurance paid $27.00. Cause of fire, dirty chimney.

Feb. 28. 2 story residence. Owned and occupied by Mrs. C. Martin. Value of building $9000.00. Insurance upon $7500.00. Damage $50.00. Insurance paid $50.00. Value of contents $2000.00. Insurance upon $1500.00. Damage $25.00. Insurance paid $25.00. Cause of fire, defective oil stove

March 10. 2½ story tenement. Owned by Frank Albert. Occupied by same and others. Value of building $7000.00. Insurance upon $4000.00. Damage $25.00. Insurance paid $25.00. Cause of fire, dirty chimney.

March 17. 3 story tenement. Owned by Fred Lauziere. Occupied by various parties. Value of building $9000.00. Insurance upon $2900.00. Damage $5.00. Insurance paid $5.00. Cause of fire, dirty chimney.

April 22. 2 story brick tenement. Owned by P. Beaudoin. Occupied by various parties. Value of building $50,000.00. Insurance upon $20,000.00. Damage $210.45. Insurance paid $210.45. Value of contents owned by C. Bouhles & Co. $10,000.00 Insurance upon $7000.00. Damage $196.00. Insurance paid $196.00. Value of contents owned by Frank Goodridge $18,000.00. Insurance upon $5000.00. Damage $25.00. Insurance paid $25.00.

April 23. 2½ story tenement. Owned by L. Rheaume. Occupied by same and others. Value of building $8000.00. Insur-

ance upon $5000.00. Damage $20.00. Insurance paid $20.00. Cause of fire, dirty chimney.

April 24. 2½ story tenement. Owned by James Alonzo. Occupied by same and others. Value of building $8000.00. Insurance upon $7000.00. Damage $20.00. Insurance paid $20.00. Cause of fire, short circuit.

April 25. 2 story brick residence. Owned and occupied by J. Dumontier. Value of building $12,000.00. Insurance upon $8000.00. Damage $45.00. Insurance paid $45.00. Cause of fire, unknown.

April 29. 2 story residence. Owned and occupied by F. Gosselin. Value of building $4000.00. Insurance upon $1500.00. Damage $15.25. Insurance paid $15.25. Cause of fire, dirty chimney.

May 4. 2½ story tenement. Owned by J. Fontaine. Occupied by same and others. Value of building $6000.00. Insurance upon $4000.00. Damage $1965.75. Insurance paid $1965.75. Value of contents $1500.00. Insurance upon $1000.00. Damage $832.80. Insurance paid $832.80. Cause of fire unknown.

May 5. 2 story brick bank. Owned and occupied by City Savings Bank. Value of building $50,000.00. Insurance upon $35,000.00. Damage $24.84. Insurance paid $24.84. Cause of fire, short circuit.

May 5. 2 story tenement. Owned by E. Gilbert Co. Occupied by various parties. Value of building $9000.00. Insurance upon $7750.00. Damage $7750.00. Insurance paid $7750.00. Value of contents owned by E. Steady $10,000.00. Insurance upon $1500.00. Damage $1500.00. Insurance paid $1500.00. Value of contents owned by E. James $900.00. Insurance upon $400.00. Damage $380.00. Insurance paid $380.00. Cause of fire, short circuit.

May 6. 2½ story residence. Owned and occupied by L. Plante. Value of building $5000.00. Insurance upon $3000.00. Damage $700.00. Insurance paid $700.00. Cause of fire, curtain blown on lighted candle.

May 6. 3 story tenement. Owned by Fred Bell. Occupied by various parties. Value of building $10,000.00. Insurance upon $6000.00. Damage $478.34. Insurance paid $478.34. Cause of fire, flooded oil burner.

May 12. 2 story residence. Owned by E. Fortier. Occupied by same. Value of contents $2000.00. Insurance upon $1500.00.

Damage $45.06. Insurance paid $45.06. Cause of fire unknown.

June 10. 2 story brick store. Owned by George Duval. Occupied by same and others. Value of contents owned by O. Langis $1000.00. Insurance upon $350.00. Damage $40.00. Insurance paid $40.00. Cause of fire unknown.

June 14. 2 story residence. Owned and occupied by Ed. Stanley. Value of building $6000.00. Insurance upon $4300.00. Damage $21.55. Insurance paid $21.55. Cause of fire overheated chimney

June 18. 2 story store. Owned and occupied by G. Brassard Co. Value of contents $5000.00. Insurance upon $3600.00. Damage $48.88. Insurance paid 48.88. Cause of fire unknown.

June 20. 2 story tenement. Owned by E. Teare. Occupied by same and others. Value of building $5000.00 Insurance upon $3000.00. Damage $60.50. Insurance paid $60.50. Cause of fire, dirty chimney.

June 21. 2½ story tenement. Owned by Mrs. Bisbee. Occupied by same and others. Value of building $15,000.00. Insurance upon $1,000.00. Damage $25.00. Insurance paid $25.00. Cause of fire unknown.

June 22. 2 story residence. Owned and occupied by A. Lagesse. Value of building $7000.00. Insurance upon $6000.00. Damage $83.90. Insurance paid $83.90. Cause of fire, dirty chimney.

July 5. 3 story tenement. Owned by Ed. Steady. Occupied by various parties. Value of building $40,000.00. Insurance upon $25,000.00. Damage $1308.38. Insurance paid $1308.38. Cause of fire, fireworks. Value of contents owned by W. Bushey $1500.00. Insurance upon $800.00. Damage $10.00. Insurance paid $10.00.

July 18. 1 story foundry. Owned and occupied by Cross Machine Co. Value of building $40,000.00. Insurance upon $30,400.00. Damage $175.00. Insurance paid $175.00. Cause of fire, sparks.

July 29. 2 story residence. Owned and occupied by A. Croteau. Value of contents $1500.00. Insurance upon $1000.00. Damage $64.50. Insurance paid $64.50. Cause of fire unknown.

August 5. 2 story brick residence. Owned and occupied by A. Nickol. Value of building $7000.00. Insurance upon $5000.00. Damage $36.00. Insurance paid $36.00. Value of contents $1500.00. Insurance upon $800.00. Damage $30.00. Insurance paid $30.00. Cause of fire unknown

Aug. 18. 2 story residence. Owned and occupied by E. Lacasse. Value of building $5000.00. Insurance upon $2000.00. Damage $20.00. Insurance paid $20.00. Value of contents $1500.00. Insurance upon $500.00. Damage $52.52. Insurance paid $52.52. Cause of fire, defective oil stove.

Sept. 16. 2 story residence. Owned and occupied by A. Klitsken. Value of contents $1000.00. Insurance upon $600.00. Damage $40.00. Insurance paid $40.00. Cause of fire unknown.

Sept. 16. 3 story tenement. Owned by A. Abramson. Occupied by various parties. Value of building $7000.00. Insurance upon $5000.00. Damage $170.00. Insurance paid $170.00. Cause of fire, dirty chimney.

Sept. 27. 3 story tenement. Owned by H. Abramson. Occupied by same and others. Value of building $5000.00. Insurance $4000.00. Damage $125.00. Insurance paid $125.00. Cause of fire, smoking in bed.

Oct. 4 3 story hotel. Owned by J. Gaynor. Occupied by same. Value of building $30,000.00. Insurance upon $25,000.00. Damage $58.01. Insurance paid $58.01. Cause of fire, smoking in bed. Value of contents $13,000.00. Insurance upon $9500.00. Damage $58.38. Insurance paid $58.38

Oct. 18. 3 story tenement. Owned by Fred Bell. Occupied by various parties. Value of building $15,000.00. Insurance upon $10,000.00. Damage $145.15. Insurance paid $145.15. Cause of fire, defective oil burner.

Oct. 18. 2 story tenement. Owned and occupied by J. Farrell. Value of contents $1500.00. Insurance upon $1000.00. Damage $25.00. Insurance paid $25.00. Cause of fire unknown.

Oct. 29. 2 story residence. Owned and occupied by Mrs. H. Bouchard. Value of building $5000.00. Insurance upon $2000.00. Damage $17.50. Insurance paid $17.50. Cause of fire, dirty chimney.

Nov. 27. 3 story tenement. Owned by W. Bedard. Occupied by various parties. Value of building $10,000.00. Insurance upon $7000.00. Damage $8.56. Insurance paid $8.56. Cause of fire, rubbish burning on porch.

Dec. 6. 1 story lunch room. Owned and occupied by E. Provencher. Value of building $1000.00. Insurance upon $300.00. Damage $17.95. Insurance paid $17.95. Cause of fire, overheated stove pipe

Dec. 9. 2 story garage. Owned and occupied by W. Mountain. Value of building $1500.00. Insurance upon $1000.00.

Damage $552.00. Insurance paid $552.00 Value of contents $2000.00. Insurance upon $1500.00. Damage $1400.00. Insurance paid $1400.00. Cause of fire, overheated stove

Dec. 9. 2 story garage. Owned and occupied by W. Costello. Value of building $30,000.00. Insurance upon $20,000.00. Damage $226.00. Insurance paid $226.00. Cause of fire, alcohol explosion caused by electric arc.

Dec. 23. 2 story residence. Owned by A. Sloane. Occupied by tenant. Value of building $4000.00. Insurance upon $3000.00. Damage $75.00. Insurance paid $75.00. Cause of fire unknown.

	Cascade hose house	800.00
		$ 71,545.00

Report of Park Commissioners

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—

For the past two years the Berlin Playgrounds, under the management of Miss Maude D. Monahan, supervisor, and Mr. C. H. Littlefield, assistant supervisor, have been very successful. The Y. M. C. A. grounds were devoted to athletics for the older boys, and last summer we added wood-working for the younger boys. This was in charge of Mr. Ashline. We purchased a new swing for the Bartlett School, and we have the swings tested each week to avoid accidents.

We usually have a session of nine or ten weeks, but this year the Centennial and early opening of the city schools left but eight weeks. As this was a saving of $230.00, we felt justified in installing showers for the children.

Each year we plan something to make the playgrounds more attractive for a larger number of children. In a measure we have succeeded; the boys and girls this year are far different from the youngsters of five years ago.

Shelters are needed on the grounds. There are few shade trees, and the hot sun beating on the cinder-filled yard is a cause of discomfort and complaint. A few loads of gravel would improve this condition, and make them more popular and useful. Few mothers are keen on daily wash-board exercise, particularly on hot summer days.

Another hope cherished by the committee is a high wire fence. This would give parents and children a sense of security, and if vines were planted they could be cared for by the children, giving them another interest.

EXPENDITURES RE PARKS AND PLAYGROUNDS

1929			
July	8	Bell's Hardware Store—Saws, nails, etc.....$	14.97

MARY KENYON SULLIVAN,
(Mrs. Edmund)
Chairman of Playgrounds.

J. FRED BELL, Chairman,
MARY KENYON SULLIVAN,
W. E. MOUNTAIN,
Park Commissioners.

Report of City Playgrounds, 1929

To the Park Commissioners of the City of Berlin:

I herewith submit my report for the fifth season of the Berlin Playgrounds opened on July 8th and extended for a period of eight weeks, closing on August 30th.

The playgrounds were sponsored by the following committee:

Mrs. Edmund Sullivan, Chairman.
Mrs. Lynn Cutler
Mrs. L. R. Paine
Mrs. H. N. Hodgdon
Mrs. Maude Barney
Miss Alice Chaffee
Mrs. Mark Twitchell
Mrs. Paul Brown

The playgrounds were under the direction of

Miss Maude D. Monahan Supervisor.
Miss Constance Brungot, Brown School Playground.
Miss Mabel McKelvey, Bartlett School Playground.
Miss Zelma Keenan, Marston School Playground.
Mr. Clifford Littlefield, Y. M. C. A. Ground.
Mr. William Ashline, Y. M. C. A. Ground.

All the children of the City of Berlin between the ages of five and sixteen years of age were eligible to attend these playgrounds, which were open from 9 A. M. to 11:30 A. M., and 2 P M. to 4:30 P. M

Each playground is equipped with a sandbox, teeter boards, swings, game equipment, slide, sewing equipment and basketry materials. During the past season, new showers were installed on each ground, a toy orchestra for each was purchased and new sewing tables and benches were built by the wood-working department under the direction of Mr. William Ashline, this department being a new feature on the Y. M. C. A. Ground.

The general program on the grounds is as follows:

9:00 A. M. to 10:30 A. M.—Use of the slide, swings, game equipment and volley ball court, the instructors playing games with the children during this hour.

10:00 A. M. to 10:45 A. M.—Folk Dancing.

10:45 A. M. to 11:30 A. M.—Toy Orchestra and Showers at the close.

2:00 P. M. to 3:00 P M.—Showers, use of equipment and games.

3:00 P. M. to 4:30 P. M.—Storytelling, sewing and basketry.

The Y. M. C A. Ground schedule was arranged for boys between the ages of twelve and sixteen years aud was as follows:

9 A. M. to 11:30 A. M.—Base ball, volley ball and tennis.

2 P. M. to 4:30 P. M.—Base ball, woodworking and swimming.

The closing features of the playgrounds were the Track Meet, held at the Y. M. C. A. Ground, the Picnic at the City Camping Ground, the Doll Carriage Parade, Sewing Exhibition, Woodworking Exhibition, Basketry Exhibition and Dance Festival, all of the latter being held at the High School Auditorium.

Prizes were awarded by Mr. P. J. Hinchey to the three most artistically decorated doll carriages, to the three best exhibits in sewing and to the best exhibit in basketry.

From the number of children which visited the grounds daily, it is very evident that they received a great deal of pleasure and benefit both physically and mentally.

I am sincerely grateful to the members of the committee and to the instructors on the grounds for their splendid spirit of cooperation thus enabling me to accomplish the desired results.

MAUDE. D. MONAHAN,
Supervisor.

Report of City Solicitor

Berlin, N. H., January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

Herewith I submit my report as Solicitor for the fiscal year ending January 31, 1930.

The equity case of Maria H. Chamberlin, and other heirs of Ira Mason, late of Berlin, deceased, involving the title to the Cole School, so called, on Mason Street, was finally disposed of by the payment by the City to the heirs, of the sum of fifteen hundred dollars ($1500), and all claiming an interest in the property executed a Quitclaim Deed to the City, and no further question can ever arise as to the title. Although the Superior Court, after a lengthy hearing, handed down a decision in favor of the City, numerous questions of law were involved, and the plaintiffs indicated their intention of having the case transferred to the Supreme Court, which would have meant further expense to the City. After several conferences the Mayor, Finance Committee and the Solicitor believed it to be for the best interests of the taxpayers, to adjust on the basis above named, and with the approval of the City Council the case was thus disposed of.

The action of the Hub Cycle and Auto Supply Company, and Howard W. Jenkins vs. City of Berlin, and A. E. Michaud, former Tax Collector, is still pending. The plaintiffs in this case are creditors of William Demers, Jr., and the action involves a tax sale made by the City of property formerly owned by Demers. It was scheduled for a hearing on January 15, 1930, before Fred C. Cleaveland, sitting as Referee in the Superior Court, but owing to the inability of some of the witnesses to be present, it was postponed until March.

The City was cited in to defend in an action instituted by Joseph E. Beaudoin against Peter Beaudoin, involving the validity of the laying out of Cushing Street. This case was tried before the Hon. Henri A. Burque, in December, 1929, but no decision has been rendered.

On March 23, 1929, Amedee Labonte brought a suit against the City to recover about $2000 which he alleged to be due him as a police officer. This case was also tried in the Superior Court at the October, 1929 term, but no decision has been handed down.

The same plaintiff also filed in the Superior Court a petition for a writ of certiorari against Napoleon Ramsey, Julius Stahl and Perley W. Churchill, as Police Commissioners of Berlin, alleging that he was illegally discharged from the Police Department. The case was heard in December, 1929, but a decision has not been rendered by the Court.

In September, 1929, Damase Pelletier instituted a suit against the City to recover damages for the loss of twenty rabbits killed by a dog, such action is allowable under our Statutes. The case was tried in December, 1929, and a verdict of $26.00 rendered in favor of the plaintiff.

The Berlin Street Railway Company recently filed an appeal against the City from the assessment of taxes, which case is now pending.

Numerous other claims were presented against the City and investigated, and reported on.

The Overseer of the Poor has been very active in prosecuting husbands and also relatives who failed and neglected to support needy dependents and relatives, and this office has made numerous complaints and warrants for this official, and prosecuted many cases of this kind before the Municipal Court.

An immense amount of other work has been carried on during the past year through this office, in co-operation with the various Committees of the City Council, especially the Committees on Engrossed Ordinances, a majority of the Ordinances now in force in this City were passed twenty-five or thirty years ago, and have become antiquated and not applicable to present day conditions, and in consequence thereof the City Council voted to repeal, revise and create a new set of Ordinances, as practically every City of the State has done in the last few years, and place the same in proper book form so that they may be easily accessible to all citizens. A work of this kind naturally requires much time and labor, and the Committee mentioned has held numerous sessions during the past year, and each and every member of the Council has given careful consideration to each Ordinance as it has been presented. The work is not yet completed, and will require considerable more time and labor.

Prior to the Centennial Anniversary the Solicitor was called upon to examine and approve every contract made by any Committee connected with that celebration.

All legal work connected with the Water Commission and other departments has also been handled by the Solicitor during 1929.

I desire to take this opportunity to express my appreciation to the Mayor and City Council, and other members of the City Government for their kind co-operation.

Respectfully submitted,

MATTHEW J. RYAN,
City Solicitor.

Report of Sealer of Weights and Measurers

Berlin, N. H., January 31, 1930.

Report of Police Commission

Berlin, N. H., January 30, 1930.

To His Excellency, the Governor of the State of New Hampshire, and His Honor, the Mayor, and the City Council of the City of Berlin:

In accordance with the provisions of Chapter 160, Session Laws of 1905, as amended by Chapter 198, of the Session Laws of 1913, we submit our annual report.

The activities of the Police Department for the past year have been of the usual character, as shown by the City Marshal's report. Three new Officers were appointed. Officer Arthur Tatreault died, and Officer Wilfred Stone resigned. A small car for general patrol work was purchased. The policy has been adopted of giving one day off in seven to the members of the force, as in the case of most Police Departments.

4

Police Commissioners

The Police Commissioners are appointed by the Governor, one each year, for a period of three years, with a salary of $350.00 a year to be divided at the discretion of the Commissioners. The terms of the present members expire as follows:

Napoleon Ramsey, September 1, 1930.

Julius Stahl, September 1, 1931.

P. W. Churchill, September 1, 1932.

Beat No. 1—Berlin Mills, from Eighth Street to Ste. Anne's Church.

Beat No. 2—From Ste Anne's Church to Stahl-Clarke's store

Beat No. 3—From Stahl-Clarke's store to Grand Trunk Station, and lower Main Street, opposite the I. P. Co., as far as the Grand Trunk crossing.

Beat No. 4—Pleasant Street.

Beat No. 5—East Side, Boston & Maine Station and Mason Street.

Patrol car covers all sections of the City both day and night.

Respectfully submitted,

NAPOLEON RAMSEY,
JULIUS STAHL,
P. W. CHURCHILL,
Police Commissioners.

Police Department

REPORT OF CITY MARSHAL

To the Honorable Board of Police Commissioners:

I wish to express my appreciation and thanks to the Police Commission, Mayor and City Council for the cooperation I have received during the past year.

The department deeply appreciates the many courtesies and favors extended during the year.

Respectfully submitted,

ORVILLE STEWART,
City Marshal.

Report of Overseer of the Poor

Berlin, N. H., February 1, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen: I herewith submit my report as Overseer of the Poor for the year ending January 31, 1930.

This has been a very expensive year for this department due to several causes:

1st.—Our increase in population.

2nd.—Slackness of work.

3rd.—Difficult for men past middle age to secure employment in the mills of our City.

4th.—Our present Liquor Laws, for violation of which heads of families are sent to the House of Correction.

I have devoted a great deal of time to this office and tried to be as economical as I could and not let the poor suffer.

I would recommend a larger appropriation for this department and also a substantial increase in the salary of the Overseer of the Poor.

I wish to thank His Honor, the Mayor, and the City Council, and other City Officials for the aid given me during the past year.

J. E. PARENT,
Overseer of the Poor.

Report of Municipal Court

Berlin, N. H., January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen: I herewith submit my report as Clerk of the Municipal Court for the year ending January 31, 1930:

Amount received from February 1, 1929, to and including January 31, 1930	$ 18,236.24
Amount paid, fines to State and County, etc	7,224.52
Amount paid to Treasurer	$ 11,011.72

Respectfully submitted,

H. M. MOFFETT,
Clerk of Municipal Court.

Report of City Clerk

Berlin, N. H., January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin.

Gentlemen: I herewith submit my report as City Clerk for the year ending January 31, 1930.

I have collected for the City of Berlin and credited to the appropriate departments the following sums:

Auto licenses	$ 23,477.04
Dog licenses	1,207.30
Transfer account	1,873.95
City Hall	359.00
Tax Sales	125.05
Public Works Department	5,437.10
Interest on Tax Sales	18.80
Cemetery	630.00
Miscellaneous	14.50
Fire Department	437.85
School Department	65.00
City Hall Rest Room and Comfort Station	56.30
Health Department	32.80
	$ 33,734.69
Paid City Treasurer	$ 33,734.69

Respectfully submitted,

H. M. MOFFETT,
City Clerk.

Public Works Department

Berlin, N. H., January 31, 1920.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen: I submit to you the report of the Department of Public Works for the year ending January 31, 1930. The work done by the Department this year has been of a permanent nature, very little money has been expended for temporary or cheap construction. The policy of the Department has been to organize the work in such a manner as to provide as much work as possible for the unemployed citizens of the City, as consistent with the general plan of economy.

I am submitting below the general maintenance sheet of the Department, this sheet shows expenditures only:

	1928	1929.
Street maintenance	$ 32,319.58	$ 44,426.72
Sewer maintenance	2,057.74	3,320.20
Road maintenance	698.95	451.33
Stable	4,482.81	4,928.91
Tools and equipment	3,087.97	2,117.61
Incinerator	3,410.04	3,453.10
Garbage	9,464.51	9,426.83
Skating rinks	481.75	566.79
Ashes	3,671.70	3,200.99
Cates Hill	2,717.73	8,183.47
Garage	5,720.65	6,522.65
Patching	3,149.04	4,552.20
Cemetery	1,171.81	1,276.23
Success Road	438.55	138.98
State Road maintenance	3,809.72	4,139.28

NEW EQUIPMENT—The City has purchased the following equipment:

One-ton and one-half Federal Truck.

One Dodge Roadster.

One Concrete Mixer.

One Crushing Plant.

CASCADE STATE ROAD—The road leading to the Cascade was re-located and built so as to eliminate two grade crossings. This consisted of a fill in the Cross Power forebay of twenty-five thousand cubic yards of ashes also to construct a new roadbed, pole line, etc., for the Berlin Street Railroad.

This job was taken by contract by the Public Works Department at a price of nineteen thousand fifty-nine dollars and ten cents ($19,059.10) the State paying one-half of the contract price. With the cooperation of the Brown Company we were able to build this road at a profit to the City. In connection with this job a concrete sidewalk was built from the car barn to the Gorham line at a cost of eight thousand four hundred eighty-five dollars and fifty-seven cents ($8485.57).

WEST MILAN ROAD—The culvert headers, shoulders and ditches of the West Milan Road were completed this year at a cost of five thousand one hundred eighty-eight dollars and eighty cents ($5188.80). This road is now completed with the exception of the mile of asphalt treatment which will be completed next summer.

BRIDGES—All of the bridges were painted this summer. The work was done by this Department with a pneumatic paint spray which we hired from the State. The cost of painting all of the bridges was eighteen hundred fifty-four dollars and twenty-seven cents ($1854.27). I feel that we have a job that will last at least ten years.

CENTENNIAL—This Department was called upon to build arches, band stands, bleachers, booths and to furnish men and equipment to help the Centennial Committee stage the greatest event the City of Berlin has ever put over. Our expenses were three thousand six hundred two dollars and eighty-nine cents ($3602.89) which was paid to this Department from the Centennial appropriation.

CEMETERY—The City Cemetery has been terraced, regraded and thirty-six additional lots have been staked out.

CATES HILL—The maintenance cost of this road has been so high due to the lack of available gravel that it was decided to install our old crusher and pave to a width of fifteen feet. about a mile was completed at a cost of six thousand four hundred twenty-seven dollars and twenty-six cents.

GARAGE—A paint shop and oil room has been added to our garage. This addition will give us more room for storage and a

room free from dust in which we can paint and varnish our equipment.

CRUSHER—A new storage bin was built and elevating machinery installed at our crushing plant on the Jericho Road at a cost of four thousand eight hundred dollars ($4800.00).

EQUIPMENT—Our trucks, rollers, concrete mixers, tractors, etc., have been kept in good repair and painted by our men at the garage.

CONCRETE PIPE—We made last year over ten thousand lineal feet of concrete pipe in 12″ 18″ and 24″ sizes this pipe was all used in the City for culverts surface drains or sewers.

A few of the larger jobs are as follows:

FIRST AVENUE—A wall sidewalk and a street was constructed on First Avenue from Clarke Street to Laurel Street at a cost of three thousand seven hundred ninety-nine dollars ($3799.00).

RUSSIAN AND PETROGRAD STREETS—That section near the Russian Church has been without sewer or water until this fall when thirteen hundred ninety-four lineal feet of sewer and water pipe was laid, at a cost to the Department of two thousand nineteen dollars and seventy-three cents ($2019.73).

CHURCH STREET—An 18″ and 24″ surface drain was laid from Dead River to the upper end of Church Street at a cost of seven thousand eight hundred and seventy-eight dollars and thirty-four cents ($7878.34). This is a much needed improvement as it will take care of surface water that has been causing damage to residents in that section, also relieve pressure on the present sanitary sewer system.

BLANCHARD STREET—A concrete sidewalk was built, ledge balsted and the street paved at a cose of two thousand eigh y-six dollars and sixty-four cents ($2086.64).

HILLSIDE AVENUE—This street was paved and a sidewalk built between Prospect and Spring Streets at a cost of two thousand nine hundred eleven dollars and six cents ($2911.06). This job will eliminate a considerable maintenance cost and give the residents of that section above a better entrance to the business section of the City.

TENTH STREET—An eighteen inch surface drain was laid on Tenth Street from Sweden Street to the river at a cost of two thousand two hundred sixty-five dollars and thirty-five cents

($2265.35). This will eliminate damage caused by surface water to the residents in that section.

MERRIMAC STREET—A concrete sidewalk was built, the street graded and paved at a cost of two thousand four hundred thirty-seven dollars and sixty-seven cents ($2437.67). This was a much needed improvement as the street has been in a bad condition for years, surface water from Burgess Street washing gravel into the catchbasins, thus causing damage to all of the streets below.

LIBERTY PARK SEWER—A sanitary sewer was laid on Maynesboro Street and Marne Street at a cost of thirteen hundred sixty-three dollars and eighty cents ($1363.80). This job, although rather expensive, due to ledge excavation, will take care of a large section of Liberty Park.

BITUMINOUS MACADAM—Was laid on Hillside Avenue.

WATER BOUND MACADAM—Was laid on the following streets: Hamlin Street, First Avenue, Shepard Street, Fifth Avenue, Willow Street, Blanchard Street, Park Street, Merrimac Street, Sixth Street, and Cates Hill Road.

CONCRETE SIDEWALKS—Laid on the following streets: Second Avenue, Shepard Street, Mt. Forist Street, Clarke Street, First Avenue, High Street, Park Street, Blanchard Street, Hillside Avenue, Main Street, Prospect Street, Tenth Street, Seventh Street, Norway Street, Guilmette Street, Grafton Street, Carroll Street, Merrimac Street, Beaudoin Street, Lancaster Street, Derrah Street, Marble Street and Hillsboro Street.

The above are only a part of the jobs done in this City. The office and books of the Department are always open to those wishing information not given in this report.

The Mayor and Committee in recommending the work for the last year, investigated all conditions thoroughly before ordering any work done then did recommend the jobs that would serve the public to the best advantage.

The work of the Mayor and Committee on Public Works has been exceptionally strenuous this year on account of the number of investigations required by the numerous petitions, letters and complaints.

In closing I wish to express my thanks to the Mayor, the members of the City Council, and the Committee on Public Works

and the residents of the City for their hearty cooperation and assistance during the past year.

Respectfully submitted,

FRANCIS L. BRANNEN,
Commissioner of Public Works.

PUBLIC WORKS INVENTORY

One gasoline driven roller	$ 4,625.00
One steam roller (with searifier)	3,000.00
One stone crusher, with bins and engine complete	6,000.00

Auto crusher and steam oil	30.00
Hay and grain	60.00
Three tar heating kettles	400.00
Concrete pipe	2,800.00
Three concrete mixers	800.00
Two blasting batteries	70.00
300 feet second hand hose	75.00

Report of City Engineer

Berlin, N. H., January 31, 1930.

To his honor, the Mayor, and City Council of the City of Berlin:

Gentlemen: I respectfully submit herewith the report of the Engineering Department for the year ending January 31, 1930. The following will be an outline of the work carried on by this Department, as a more complete list of work is shown in the report of the Commissioner of Public Works.

The routine work of the Department has been carried on as usual, locations have been given for sewers, manholes and catch basins. Cemetery lots have been staked out, lines and grades have been given to those building new homes, house numbers, pole and hydrant locations have been given. These records are on file at City Hall.

Surveys and plans were made for the extension of new streets accepted by the City and have been placed in the highway records.

A complete survey of the Cascade Road from the car barn to Nibroc Park has been made, lines and grades established and the road relocated.

A cross section survey has been made of the Brown Company field at the end of the concrete road at Milan, a contour plan has been made and the quantities of fill estimated to grade this field so that it can be used as an airport.

A survey and contour plan have been made of two proposed sites for municipal swimming pools, one on the Murray lot at Berlin Mills and the other below Dead River dam. On either location a pool could be built at a very moderate cost.

Plans and drawings were made for the Centennial Committee for booths and arches, used during the celebration.

A survey has been made for a surface drain from Goebel Street to the Androscoggin River, which will be installed before spring.

Many plans have been added to our files during the past year these plans are always available to the public.

Plans and surveys have been made for several of the City's court cases during the past year.

In closing I wish to thank the Mayor and Council, City Officials and Residents of the City of Berlin for their hearty cooperation during the past year.

Respectfully submitted,

FRANCIS L. BRANNEN,
City Engineer.

Report of Building Inspector

Berlin, N. H., January 31, 1930.

To his Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen: I hereby submit my report as Building Inspector for the year ending at this date.

Report of Board of Education

To His Honor, the Mayor, and Members of the City Council:

Herewith we submit the forty-fifth annual report of the Board of Education.

We wish to call your attention to the report on the condition of the schools made by Dr. George D. Strayer and also to the report of the Superintendent of Schools both of which are printed herewith in full.

These two reports, we believe, show the necessity of an additional building program in order to give adequate space due to the ever increasing enrollment especially in the Junior and Senior High Schools.

The Board is especially appreciative of the cooperative spirit shown by the members of the City Government and the Community.

Respectfully submitted,

PATRICK J. HINCHEY,
Chairman Board of Education.

Report of Superintendent

To the Board of Education:

The report of Dr. Strayer covers so many details of our school work that I am not attempting in this report to include such material. As a matter of record I do suggest the printing of the tables and brief summaries which follow.

To my mind the essential accomplishment of the past year has been the very careful beginning of individual instruction. I believe that very creditable progress has been made in this direction.

I wish to call particularly to your attention the impending necessity for more room at the junior high school. Our plan of reorganization calling for a junior high school including the seventh, eighth and ninth grades and a senior high school with tenth eleventh and twelfth grades will soon be a necessity. The senior high school building was planned for a maximum capacity of 600 pupils. The present enrollment is 608 and already it is necessary to hold one class in the Marston building. Within a very short time the ninth grade will have to be transferred to the junior high school building as planned. When that time comes more rooms will be absolutely necessary.

I have called to your attention in the past two annual reports the need for building in the Bartlett and Brown districts in the near future. It seems to me it would be wise for us to get our junior high school building done this year if possible so that it will not be necessary for us to be carrying on building operations in two different places duirng the same year.

The figures on the growth of the high school during the last four years should explain why I am anxious that this should be done at the earliest possible time. Enrollment in January, 1927 was 507; in 1928, 558; in 1929, 582 and at the present time, 608. In the meantime the junior high school has grown from 263 in 1926 to 382 at the present time.

Dr. Strayer's report emphasises the need for additional junior high school facilities. Both these needs can be met by putting on

junior high school additions. In his oral report you will recall that Dr. Strayer favored building shops and classrooms in the front of the building where the original plans called for an auditorium and gymnasium. This should give us eight or nine rooms additional. This number of rooms will just take care of the ninth grade when it is sent back to the junior high school building. Expansion in the junior high then would be taken care of by removing the present fifth and sixth grades to additions to be made at the Bartlett building.

I wish to take this opportunity to express my appreciation to the members of the City Government, to the Board of Education and to my professional associates for their friendly interest and cordial support of the program for better schools.

Respectfully submitted,

C. M. BAIR,
Superintendent of Schools.

REPORT OF A STUDY OF THE SCHOOL SYSTEM

OF

BERLIN, N. H.

Made During the Week of January 27, 1930

BY

GEORGE D. STRAYER

TEACHERS' COLLEGE, COLUMBIA UNIVERSITY

6

Report of George D. Strayer

Report of a study of the Berlin, New Hampshire School System, made during the week of January 27, 1930, by George D. Strayer of Teachers' College, Columbia University.

This report is based upon my study of the schools of Berlin undertaken at the request of Mrs. W. R. Brown.

I have examined the records kept in the office of the Superintendent of Schools, in the offices of the principals, in the office of the school nurse as well as the printed city reports. I have visited each class room in each of the elementary schools and in the junior and senior high schools. I have had an opportunity to observe the work of the children, to examine the records of their achievements as indicated by standardized tests and to discuss the work that is being done with individual teachers and with the whole group at a teachers' meeting.

As a result of my contacts with the school system I am glad to be able to report that I am confident that the schools of Berlin are, on the whole, rendering a very high grade of service to the children who are enrolled in them.

There are certain particulars in which I believe that the program of the schools should be advanced and improved. These observations with respect to the further building of the efficiency of the school system will occur in the body of the report.

Progress in public education during the past 25 years is measured in a large degree by the studies which have been made with respect to individual differences. We know now, with a degree of certainty that was not formerly possible, of the differences that exist among children in intelligence and in their ability to do the work of the school. Children of the same age entering the first grade vary in their ability to learn to read, to write, to spell, to solve the problems of arithmetic and in every other respect. In like manner, high school boys and girls who have gone through the elementary and junior high schools may not reasonably be expected to take the same courses, nor can they do the same quality of work in algebra, or geometry, in English or in history, in French or

in Latin, in physics or in chemistry, in shorthand or in typewriting, in the machine or print shops.

Achievement is always related to the individual's capacity and interests in a given line of work and of the experiences which he may have had prior to the situation in which he now finds himself. Schools do their best work only when they provide those sort of opportunities which will stimulate each pupil to do his best. The most important contribution that education can make to a boy or girl is to encourage and stimulate him to a maximum of achievement.

Whatever the degree of accomplishment, so long as it is the best that the pupil can do, it should receive recognition and approval by the school. The more certainly we can provide for regular progress for all boys and girls the more certainly our schools are successful. The greatest misfortune that can happen to a boy or girl in school is to be taught to fail or to become discouraged and disheartened.

When teachers seek to adapt their work to the needs of individual boys and girls they find that they cannot have a single standard of achievement. They must vary their assignments to suit the capacities of their pupils. One child in the first grade may learn to read haltingly three or four first readers, another boy or girl during the same period may have almost completely mastered the art of reading. For one pupil the learning of Latin or French may progress so rapidly that he can begin to read in the language before the end of the first year's work others may make much less progress and yet later may achieve considerable facility. Some boys and girls in their high school work should take those subjects which prepare them for entrance to the college or university; other pupils should spend their time in courses which lead more directly to the type of work which they will take up in the office, the shop, the industrial plant or the store upon leaving high school.

When we succeed we help boys and girls to find the kind of work which they can do well and in which they are interested. The school, having discovered to them the fields in which they may reasonably hope to achieve success, will then give them training in preparation for work in these fields.

In visiting the schools of Berlin I was impressed by the sincerity of teachers throughout the school system in their attack upon the problem of adjusting their work to the needs of their pupils. Through the leadership of the Superintendent of Schools and upon the basis of the evidence provided in the results of stan-

dard tests, the teachers have universally accepted a program which calls for the division of their classes into groups and for work with individuals who need special help. The point of view which I find present throughout the school system is well expressed in the foreword to a record which is now as an introduction to the courses of study in the Berlin schools. This statement is as follows:

"The rapidly growing demands of society can be met only by the development of all its resources. Latent possibilities of children are the greatest resource of society. We believe that it is the function of the school to develop these latent possibilities. Under present conditions, we believe that every child is entitled to twelve years of public school training, so arranged that the peculiar power of each child be developed and utilized to the maximum.

"The problem of the school immediately divides itself into two parts. First, the determination of pupil needs; second, the organization of the school to meet the needs. The former will involve a continuous study of the individual; his inheritance, his environment, his progress. All must be under constant observation in order that changing needs may be recognized. The latter involves organization of a flexible curriculum based upon pupil needs and constantly changing to meet the demands of modern life. This program deals with the second problem only.

"Believing in the development of right attitudes and relations toward life and that continued failure is detrimental to a child's best development, we consider it of major importance that retardation should be reduced but at the same time work should be provided which challenges the utmost capacity of the child. To accomplish this the need of a three track course seems imperative.

"In arranging the offerings of the curriculum we have constantly in mind the child as an individual and the arranging of his course as based upon a study of his personal needs by the teacher. We visualize cases in which a child may be in group one in one subject, group three in another and some subjects may be entirely omitted. We consider of paramount importance the supplying of the needs of the particular child by every means which the school has to offer wherever it may be found. In supplying these needs we have in mind not only knowledge and skills but all the demands which life may make of him.

"Habits and attitudes are of the utmost importance; confidence in himself, ability to finish a given task, powers of observation and judgments and a willingness to take on new responsibilities should be developed by solution of many real problems of school life.

"In considering a three group plan we have in mind the following general division:

Group 1	Minimum Course
Group 2	Normal Course
Group 3	Broadened Course

"The minimum course provides work that is largely remedial

"The normal course should cover the work demanded by the needs of the average child of his age.

"The work of the broadened course should, in general, give attention to specialized interests and talents, keener analysis, longer attention spans, wider organizing view over subject matter and any extra activities."

Any school system that seeks to realize the ideal set up in this statement is on the road to the development of that efficiency which takes account, not merely of the group who can succeed without regard to skill in teaching or in the arrangement of subject matter, but also is concerned with the satisfaction and success of all boys and girls.

I find myself particularly interested in the superior achievement of able pupils and in the care which is being taken to encourage and to provide for the certain progress of children who are less able. I believe that the Opportunity Class and the group organized for the sake of meeting special difficulties (called the Adjustment Class) are to be thought of as significant alongside of the classes for the accelerated children. The job of the school system is to provide all of the education that children can profit from to all of those who are enrolled in the schools.

The records on standard tests give evidence of the success of the work of teachers in the Berlin schools. Anyone who takes the trouble to examine these records will find that, while individual groups of children may fall either below or above the standard of achievement found throughout the United States, that on the whole the Berlin schools are doing good work and that there is evidence of significant improvement during the past few years. It is important to note in passing, however, that these standard tests do not tell the whole story. The happiness and satisfaction which children are getting in their work, the regularity of their attendance and their persistence in school to the junior and senior high school level are, in some ways, more significant than the mere record made in spelling or in arithmetic, in reading or in geography.

The Berlin schools have been moving ahead in these particulars. The spirit of children and teachers in the class-room is of the high-

est order. While the high school population in the state of New Hampshire has increased 33% in the past ten years, the enrollment in the Berlin High School has increased 112%. This is a clear indication of the high esteem in which children and their parents hold the work of the schools and of the satisfaction which they get in doing the work which the school offers.

The Teachers in the Berlin Schools

I have been gratified in my visits to the schools to observe the professional attitudes of teachers throughout the school system. They impress me as uniformly concerned with the accomplishment of an increasingly efficient professional piece of work. They are working with the children in a spirit of good will and good fellowship that adds greatly to the happiness the children have in attending school and contributes as well to their accomplishment. An examination of the records of these teachers shows that they are well prepared for their work and that in a majority of the cases they have taken advantage of the opportunities for professional study even after they have secured their certificates to teach and have been elected to their places in the school system.

If there is a criticism to be offered it would be by way of suggestion that in employing new teachers there would be an advantage in securing the services of those who have had somewhat more of training and more of experience than have those who have been entering the school system in the past three or four years. The strength of any school system depends upon bringing into it from time to time men and women of superior attainment. These teachers will do a good job themselves and their example will mean much to their colleagues.

The salary schedule adopted by the Board of Education is good. It is especially noteworthy that provision is made for the recognition of superior training and experience in the allotment of salaries. Even more significant is the arrangement whereby increases in salaries are given for those who go to summer school.

If there is a criticism to be offered it would be the suggestion that the regular maximum of elementary school teachers of superior training might be increased and that superior merit in any part of the school system be rewarded by somewhat more adequate salaries than are now paid.

There is another possible investment which the Board of Education could make which promises much for the improvement of the work of teachers throughout the school system. I suggest

that the sum of at least $1,000 be set aside each year and used to pay the expenses of the Superintendent of Schools or of teachers and principals when they visit other school systems that are doing superior work. My suggestion would be that six or eight members of the administrative, supervisory and teaching staff be sent each year to observe some special aspect of the work being done in the more progressive school systems and that they be required to report to their colleagues concerning the observations which they have made.

In like manner, it is important that the Superintendent of Schools and other supervisory officers attend the more important professional meetings and that they return from these professional assemblies to report the discussion of their professional colleagues. No man in an administrative or supervisory office can do his best work without contacts with men from his own region and from the United States. The money that is spent on expenses of delegates sent to such regional and national meetings will provide a big return to the work of the school system.

The Cost of the Schools

I have examined the figures showing the cost of the Berlin schools in relation to costs in other cities in New Hampshire and with respect to the cost of public education throughout the United States. Berlin is well able to maintain a high grade school system. This is indicated by the relatively high valuation in relation to the number of pupils enrolled in the schools. The costs at present are not high as compared with the progressive school systems throughout the country. Much has been done to improve the work of the schools without adding to the cost. Certain of the developments which I believe should follow will involve some additional outlay. In the financing of schools as in every other public or private undertaking a high quality of service will in the long run cost more than inefficient service.

Courses of Study in the Elementary Schools

The courses of study in the elementary schools are being revised at the present time. The record thus far made gives promise of the development of courses suited to the needs of individual boys and girls. The fact that teachers throughout the school system are at work on this problem promises well for their professional growth. In my observation of the situation I feel that there is need for further emphasis upon physical education, art and music. I do not mean by this statement to suggest that teachers and principals are not working in these fields but rather that rela-

tively less progress has been made in these subjects than in the more traditional school subjects. In our better elementary schools throughout the United States significant work in physical education and in the teaching of health has come to occupy an important place throughout the school system.

In Berlin the work in music in the junior and senior high schools holds a prominent place. One feels that it is less significantly undertaken in the elementary schools. It is apparent as well that the art work in the grades seems somewhat less developed than in the upper part of the school system.

A part of the difficulty in the field of physical education is due to the lack of gymnasiums and to the lack of adequate playspaces in connection with the elementary school buildings. In art and music it would appear that teachers feel somewhat less confident of their ability to develop work in these fields than in the other elementary school subjects. I believe that the children would profit from the specialization of work in these subjects by teachers who have unusual training and experience in teaching these arts.

The Course of Study in the Junior High School

A good beginning has been made in the establishment of a junior high school in Berlin. If, however, it is to serve the children most adequately it must be expanded. The real purpose of the junior high school is to give children a variety of opportunities and to discover for them and for their parents the fields of work in which they can most certainly hope to achieve success. The junior high school course throughout the United States is coming to be recognized on a three-year basis. The seventh, eighth ninth years of the school are included in the organization. This leaves the tenth and eleventh and twelfth years for the senior high school.

In the first and second years of the junior high school a variety of "broadening and finding" courses are offered. The object is to discover which of the children can profit most certainly from work in more advanced mathematics, in modern or ancient languages, in science, in a variety of shop work, in music, in home economics, in drawing or design, in history and literature and the like. Once the decision has been made children are allowed some degree of specialization in the last year of the junior high school which leads directly to the special courses of the senior high school.

In Berlin the junior high school is at present unable to provide

these varied opportunities because of the lack of special equipment and specially trained teachers. The shop equipment for boys should most certainly be increased. It is customary to provide in a junior high school woodworking, printing, sheet-metal work, electrical work and machine shop practice. An even more elaborate program is provided in large schools. For girls the work not infrequently includes home economics, especially in the field of sewing and textiles, design, cooking, involving dietetics, millinery; and for both boys and girls opportunities in the beginnings of commercial work.

While these highly specialized opportunities in shop and laboratory are given, the better schools offer work in general science (now offered in the Berlin junior high school), in history, in at least one modern language, in Latin, in English, in mathematics, including arithmetic and beginning algebra, in music and in drawing.

The chief deficiency at the present time in the Berlin junior high school is in the failure to provide a sufficient variety of opportunity in the shops and in the fact that in the second year program as at present organized it has not seemed to be possible to offer the beginning of a foreign language or of mathematics beyond arithmetic. It should be noted in passing, as well, that the junior high school is handicapped by the lack of a gymnasium and by the difficulty with which the assembly in the senior high school is made available.

In the discussion of the need for the development of the plan which follows recommendations are made with respect to the development of the junior high school building and equipment.

The Senior High School

One of the best measures that can be applied to a high school is the percentage of those who continue through the four years. The Berlin high school makes a creditable record in this respect. In the year 1928-1929 there were 181 boys and girls enrolled in the freshman class; 181 in the sophomore class; 119 in the junior class; 108 in the senior class. There are few high schools that will show a better holding power than this record indicates.

The courses now offered apparently meet in large measure the needs of the boys and girls enrolled. The Latin course prepares them for entrance to the liberal arts colleges and technical schools. The Mechanic Arts course prepares boys for certain of the engineering schools and colleges. The General course is intended primar-

ily for those who will complete their formal education with their high school course.

There would seem to be in Berlin and in this part of the United States a possibility of offering a somewhat more extended course in chemistry and physics with particular emphasis upon electricity in the more advanced work in physics for boys who intend to go into the big industrial plants. It has been found in a number of communities that the large industries will absorb and will give a much better than ordinary opportunity to boys who come with special training in these fields. It is suggested that a more extended program be developed by the Berlin high school in these sciences.

The School Plant

In my visits to the several school buildings in Berlin I was impressed by the high efficiency of the janitorial staff. Buildings were uniformly clean. Every building was in good sanitary condition so far as I was able to observe. The Board of Education and the Superintendent of Schools are to be congratulated upon the type of men who have been employed and the men themselves should have the recognition which comes to those who have done a difficult job well.

When one studies the school plant in Berlin he is impressed by the lack of play-space in connection with the school buildings. With the possible exception of the Bartlett school there should be developed a program through the period of the next ten or fifteen years which would provide for the enlargement of each of the various school sites. Children in Berlin are not deterred from out-of-door play by the cold weather, nor should they be. When proper precaution is taken by way of warm clothing children will gain in vitality and health by out-of-door play. As the situation is at present they are denied the freedom which they should enjoy by virtue of the lack of play-space.

Throughout the United States we are now providing from two to five acres of land for the elementary school; seven to ten acres for junior high school and from ten to twenty acres for senior high school sites. In many cases these standards have been exceeded. On account of the topography of Berlin it is not possible to secure as generous sites as these proposed but in every case it will be possible, if the problem is carefully studied, and if the right property is acquired to increase the size of sites and the play-ground area.

The school buildings in Berlin are on the whole well placed and well built. The provision for exit in case of fire from the second story of the older buildings is not adequate as one could hope for. The only satisfactory exit in buildings of wooden-joist construction is a fire-proof, smoke-proof stair-well. If and when additions are made to any of these buildings this type of exit should in every case be installed.

New construction is needed in the case of the Bartlett school and for the completion of the junior-senior high school plant. At the present time children above the third grade from the whole region served by the Bartlett school are compelled to come either to the Marston school or to the junior high school building. The distance is great and in the very near future there will not be room either in the Marston or in the junior high school to accommodate these children. There is every indication that the junior high school will need all of the space now provided in the building and the large space suggested for new shops. It would therefore be wise to add to the Bartlett building within the next year or two, four elementary school class-rooms. As has been before proposed when this addition is made a fire-proof stair-way should be included and arranged so as to provide an exit for all children from the second floor.

In the not very distant future, possibly in the next three or four years, an addition will be needed at the Brown school. This will probably take the form of either two or four additional class-rooms and will include a fire-proof exit.

The most immediate need for building is, however, in connection with the junior-senior high school plant. The gymnasium in the basement of the high school is not of sufficient size to accommodate all of the high school boys and girls who should use it. It is improperly placed, ill lighted and in no way suitable for gymnasium purposes. The space is well adapted for a swimming pool. If, and when, the junior-senior high school plant is completed it should be converted to that purpose. To take care of the junior and senior high school groups there should be two gymnasiums. Each of these spaces should have their floors above ground. They should be fifty feet wide and eighty feet long. Showers and lockers should be provided in connection with each. The distance from the floor to the bottom of the beam or truss supporting the roof should be at least twenty-two feet. One of these gymnasiums should be for the use of girls and the other for boys. They should both be built as soon as funds can be made available. If the street between the junior and senior high schools could be closed these

gymnasiums might be built to form a connection link between the senior and junior high school. If this is not feasible they should form wings to the present buildings. This would require the buying of adjacent property in order to give sufficient space.

When planned these gymnasiums should provide ample daylight on both of the longer sides so that the space may be flooded with light and, when the temperature permits, it should be open to the outside air. The most desirable gymnasium is that which most closely provides out-of-door conditions. No adequate program of physical education can be developed until these gymnasiums are built.

It is important that the children in the junior high school have an opportunity for assembly as often as three times a week. If the gymnasiums are built between the junior and senior high schools a passageway under the gymnasium floors can be provided so as to make access to the assembly room in the senior high school easily available. If the gymnasiums are built in any other location a tunnel should be constructed to connect the first floor (or basement corridor) of the junior high school with the corresponding corridor in the senior high school. This type of connection between the two buildings is essential if the children of the junior high school are to use the assembly room in the senior high school. The only solution which would be better should be the building of a separate assembly room for the junior high school.

Other Services

I have examined the service being offered by the school nurse and the work by the attendance officer and the census record.

The school nurse, in the discovery of the physical handicaps under which children suffer and in the encouragement of parents to secure treatment, is rendering a most important service to the school system. This work should be continued and still further developed. Much would be gained if it were possible to have a thorough physical examination of each child entering the school system for the first time each year. School systems that do a still better work in this field examine every child enrolled every year. The work being done in the dental clinic is of first rate importance. This service should most certainly be continued.

The successful work of the attendance officer and of the teachers and other members of the professional staff of the schools is indicated by an average daily attendance of 95% in

the grades and junior high school and of 96% in the senior high school. This is a good record

The census record is well kept.

In a school system in which principals in the elementary schools have a full program of teaching, the supervisory and other services furnished from the central office become of surpassing importance. The work done in the central office by Miss Cunningham in the fields of tests and measurement of achievement furnishes the only possible sound basis upon which teachers can adjust their work to the needs of their pupils. This work should be continued and still further developed.

The special work in the study of individual needs by Mrs. Teare and her contribution to the solution of the problem cases as they arise is of the utmost importance to the children concerned and to the school system as a whole. Her service is valuable to teachers in their work on the development of the courses of study and their adjustment to the needs of their pupils.

The special class work as has already been noted in the Adjustment and Opportunity classes means a chance for children either temporarily handicapped or lacking in ability to profit from the regular type of school work. These classes not only contribute much to the welfare of the children in them but make possible a higher degree of efficiency throughout the school system. They should most certainly be continued.

In all of my contact with the school system I have been conscious of a highly professional purpose and of a spirit of good will and cooperation upon the part of all members of the staff of the school system. I congratulate the members of the Board of Education upon their good fortune in having secured the services of men and women devoted to the work of their profession, to the well being of children and to the general good of the community.

(Signed) GEORGE D. STRAYER.

January 31, 1930.

Research Department

To Superintendent Carl M. Bair:

I herewith submit my fifth annual report of the Research Department.

In February and May the following tests were given to the pupils of the fourth, fifth and sixth grades: Woody-McCall Mixed Fundamentals, Thorndike-McCall Silent Reading, Horn-Ashbaugh Spelling and the New Stone's Reasoning Test. To the seventh and eighth grades Pressey's Diagnostic Tests in Punctuation, Capitalization, Sentence Structure and Grammar were given.

During the spring term Mrs. Teare and I gave the Gates Silent Reading Test to the first, second and third grade pupils. The results of this test were beneficial to the teachers of those grades as this test was the first diagnostic test their pupils had been given by the Research Department. The results gave the teachers some idea of how their pupils compared with the standards of their respective grades.

The National Intelligence Group Test was given to all students in grades four to eight who had not previously taken it. It was also given to the third grades the latter part of May. Besides the group test, the Binet was given to about fory special cases.

This fall, instead of giving the various diagnostic tests, we gave the New Stanford Achievement Test to all pupils in grades three to nine, inclusive. This test is in booklet form and contains the following tests: Paragraph Meaning, Word Meaning, Spelling, Language Usage, Geography, History and Civics, Literature, Physiology and Hygiene, Arithmetic Computation and Arithmetic Reasoning.

From these tests a card has been made for each individual child. This card not only shows his achievement but shows his standing in relationship to his age and grade. These cards are not only valuable for the teachers and school system but for the parents as well.

The rest of the year will be spent on special tests and working with the results of the Stanford Achievement Test.

Respectfully submitted,

BLANCHE J. CUNNINGHAM.

Report of Headmaster

To Superintendent Carl M. Bair:

I herewith submit my seventeenth annual report as Headmaster of the Berlin Senior High School.

REGISTRATION

The total registration for the school year ending June, 1929, was 584 pupils, 283 boys and 301 girls. Table I gives the registration in full. The total enrollment to date for the year 1929-1930 is 608, 303 boys and 305 girls, indicated in full in Table II. Eight pupils who left school last year due to sickness and other causes have returned.

The registration of the class of 1933 for the school year 1929-1930 is as follows: from the public schools 104, repeating the year 7, from St. Patrick's School 35, from St. Regis Academy 27, from Angel Guardian School 2, and from outside schools 21, a total of 196 pupils, 106 boys and 90 girls.

101 pupils graduated in June, 1929. Table IV gives a full report of the activities of the members of this class since graduation. It will be seen from this table that 36 percent entered colleges and training schools as compared with 31 percent for 1928, 37 percent for 1927 and 30 percent for 1926. There are 98 pupils in the Senior class that will graduate in June, 1930.

ORGANIZATION

For the school year 1929-1930 the organization of the school program is as follows: the hours are from 8:30 A. M. to 11:30 A. M. and from 1:00 P. M. to 4:00 P. M. The fourth period in the morning is used for semi-curricula activities and the last period in the afternoon is used for a make up period and also for extra-curricula activities.

BANK

Careful investigations made by Mr. Roberts, Head of the Commercial Department, show that only a small per cent of the pupils in the Junior High School and Senior High School are carrying

savings accounts in the Berlin School Bank and only a comparatively small number of pupils in these schools have a savings account in any of our city banks. This is a matter that should receive the careful attention of every parent, as it is very evident that fully 90% of the pupils in these schools should have a savings account in the Berlin School Bank and thus save the necessary money for their graduation expenses. One of the principal objects of the Berlin School Bank is to teach thrift among the pupils in our schools. The great majority of the pupils in the Grade schools should open a savings account in the School Bank when they first enter school and form the habit of making regular weekly deposits, even though these deposits may be small, and let this money remain on deposit during the years that the pupil is in the Grades, the Junior High and the Senior High School. In this way each pupil would accumulate a sum of money which would more than defray all graduation expenses and thus relieve the parents of the burden of furnishing the necessary money for graduation expenses. We have frequently heard parents complain of the graduation expenses of their sons and daughters. By following the above suggestions, the majority of the students could relieve their parents of this extra financial burden. For the past five years, the Berlin School Bank has paid interest on the depositors' accounts at the rate of 4½% interest compounded semi-annually on the first of July and the first of January. This is a higher rate of interest than is paid by the majority of our city savings banks.

STATEMENT OF THE BERLIN SCHOOL BANK

JANUARY 1, 1930

Receipts

Balance on deposit in Berlin Nat'l Bank, Jan. 1, 1930		$ 9,272.03
Grade Schools Deposits, Jan. 1, to Dec. 31, 1930	$ 1234.22	
Junior High Schools Deposits, same period	571.50	
Senior High School Deposits, same period	8,995.77	
Interest received from Berlin National Bank	337.60	
Interest received from other sources	6.98	
Total receipts		$11,146.07
Total		$20,418.10

Payments

Withdrawals by depositors and checks issued in payment of sundry accounts	$12,051.91	
Balance:		
Cash on deposit in Berlin Nat'l Bank, Dec. 31, 1929		8,332.38
Cash on hand, Dec. 31, 1929		33.81
		$20,418.10

ASSEMBLIES

The school holds three assemblies per week during the fourte period from 10:45 to 11:30 A. M. as follows:; Wednesday for boys, Thursday for girls and Friday the general assembly including the entire school. The assemblies on Wednesday and Thursday under the direction of the Headmaster, are designed to create an interest on the part of the students in the different vocations. The programs for these vocational assemblies have been made up of talks given by men and women of the different professions and business world here in our city. These talks have been very interesting and, I believe, have created an interest on the part of the student body. During the later part of the year, homogeneous groups will be formed for the purpose of further study of the work that each group is especially interested in. At a later date I am in hopes to report in tabluated form some of the results achieved, as a result of this type of assembly. In making up the program, I have found the citizens of Berlin, not only interested but anxious to do all within their power to carry out the plan for this type of assembly. I have found that the different speakers have taken time in the preparation of their papers and have never failed to report at the time given them, a fact which I believe is commendable. The following program for the school year 1929-1930 will give an idea as to the type of program used in our vocational assemblies. Prof-M. J. Schlangenhauf, Northeastern University; Dr. James Tryon, M. I. T.; Mr Gilbert, Dartmouth; Mrs. Ordway, Social Work in the West; Dr. Steady, Osteopathy; Mrs. Buckley, Mt. Holyoke; Mr. Van Arsdel, Mathematics in Research Work; Miss Chaffey, The Girls' Club; Mr. Graff, Training and Opportunities of a Microscopist; Mrs. Parker, Opportunities for Women in the Political World; Mr. Taylor, Opportunities in the Banking Fields; Miss Monahan, Training for Physical Directors; Mr. Curtis, Opportunities in the Business World; Mrs. Town, Colby; Mr. Lockyer, Forestry; Miss King, Life in a Western University; Mr. Tellington,

Vocational Analysis; Miss Corriveau, Opportunities in the Nursing Field; Dr. J. Adams Puffer, Vocational Guidance; Mr. Wight, University of Maine; Mrs. Heck, Club Work; Mr. Enman, Insurance; Miss Russell, Social Work; Mr. Richter, The Chemical Engineer; Miss Uhlschoeffer, The Nurse; Mr. Brannen, The Civil Engineer; Miss Ackerman, The Domestic Science Teacher; Mr. Rich, Law; Miss Barton, The Librarian; Mr. Marcou, The Public Health Officer; Miss Daley, The Music Teacher; Mr. Roberts, The Public Accountant; Mrs. Barney, The Kindergarten Teacher; Mr. Burlingame, The University of New Hampshire; Miss Brungot, Keene; Mr. Stafford, The Electrical engineer; Miss Kelley, The University of Iowa; Dr. Ingalls, Medicine; Miss McHale, Plymouth; Dr. Stewart, The Dentist; Miss Wilson, Photography; Mr. Hinchey, Opportunities in the Secondary Schools; Miss Dooley, The Court Stenographer. The idea of having the different teachers, not taking care of any extra curricula activity, develop general assemblies has been continued and the results have been very satisfactory.

Mechanic Arts

All the boys in the Mechanic Arts curriculum are required to take up a minimum amount of work in printing, mechanical drawing, wood work, and elementary iron work as recently recommended by the State Department of Public Instruction. During the latter part of the course, these boys will be given an opportunity to specialize in one of the four subdivisions. The printing department has completed many practical and original projects such as the printing of several school songs with clever cover designs, student hand-book, school directory, linoleum block printing and carving, report cards and other printed reports used in the organization of the school.

Music

In order to give all the students an opportunity to take up music as a semi-curricula activity, the fourth period on the morning schedule was left free without conflict for this purpose. During this period from 10:45 to 11:30 A. M. each day except Friday, the boys' band meets in the gymnasium under the direction of Mr. Murphy; the girls' band in the auditorium under the direction of Miss Leach; and the first orchestra in the music room under the direction of the Supervisor of Music, Mr. Goldthwaite. The boys' and girls' bands play at this period for their respective vocational assemblies. Under this method the musical organizations meet approximately five times per week and receive credit as per other academic subjects. Every day during the eighth period, 3:15 to-

4:00 P. M. the Glee Club meets with the Director of Music. Under this new arrangement of the music schedule, Mr. Goldthwaite has more time to spend with the instrumental classes developing new material for the major musical organizations.

Standard Tests

The following tests have been given.: Almack Civics Test, Gregory Test in American History, Brown Woody Civics Test, Carr's English Vocabulary Test, Charters Diagnostic Language and Grammar Test, Hokes Shorthand Test, Hoke Prognostic Test of Stenographic Ability, Buckingham's Extension of Ayres' Spelling Scale, New Stanford Achievement Test, Whipple's High School and College Reading Test; Stenquist Mechanical Aptitude Test, Tressler English Minimum Essentials Test, American Council Alpha French Test, White Latin Test, Monroe Standardization Silent Reading Test, Markham English Vocabulary Test, Carlson Bookkeeping Test, Thorndike Test of Word Knowledge, Thorndike McCall Reading Test, Terman Intelligence Test, Otis Intelligence Test; Haggerty Sigma Three Reading Test, and Seashore Measures of Musical Talent. The data of these tests have been tabulated and expressed graphically over a period of several years thus affording an opportunity for norms to be formed showing characteristics of our local conditions. These records are always available at the private office of the headmaster for the teachers to study. The teachers in small groups have scientifically made a study of the different tests both in the administering and the diagnostic study of the results. The greater part of the testing to date has been confined to the English Department. As a result of this scientific testing, more time has been given to the study of the individual student, thus resulting in a more scientific method of instruction. The office record that is kept of all the professional reading done by the different teachers indicates that many of the teachers are now doing more reading than ever before.

In closing, I wish to state that there is a very noticeable professional spirit among our teachers. In our scientific investigations, I find that the teachers not only respond but are open-minded and willing to spend extra time in trying to bring their teaching to a higher standard. This spirit is also transferred through the teachers to the pupils under their direction. In general, the work for the past year has been of high order.

Respectfully submitted,

D. W. McLEAN, Headmaster.

February 1, 1930.

NINETEENTH ANNUAL REPORT

OF THE

DEPARTMENT OF HEALTH

OF THE

CITY OF BERLIN, N. H.

From January 1, 1929, to December 31, 1929

Department of Health Organization

MEMBERS OF THE BOARD OF HEALTH ORGANIZATION

Mrs. Bret Mason.
Dr. J. E. Larochelle
Mr. James J. Feeney.

OFFICIAL STAFF

Eli A. Marcoux, B. S., Health Officer.
J. E. Larochelle, M. D., Medical Officer.
H. E. Wilkinson, M. D., Infant Welfare Clinic Physician.
Jeannette Vaillancourt, R. N., Infant Welfare Nurse.
Mrs. Emma B. Bigelow, R. N., N. H. T. A., Tuberculosis Nurse.
Beatrice Morgan, Laboratory Assistant and Clerk
Office and Laboratory: City Hall, Berlin, N. H.
Office Hours: Daily, 9 a. m., to 12 m. 1:30 p. m. to 5 p. m,
Saturdays, 9 a. m. to 12 m.

Report of Board of Health

Berlin, N. H., December 31, 1929.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:

We have the honor to submit to the honorable body the nineteenth annual report of the work accomplished by the department during 1929.

We wish to especially call your attention to the fact that no cases of diphtheria were reported during the year, presumably due to the fact that so many children in our city are now immunized against diphtheria thereby decreasing the incidence of this disease.

The number of infectious and contagious diseases has been about normal, except for a run of measles during January and February, and scarlet fever during October and November.

At the recommendation of the State Board of Health our Health Officer was the fortunate recipient of a free scholarship grant from the Massachusetts Institute of Technology, Boston, which he attended as the representative from this state during the last weeks in June.

We wish to express our appreciation of the friendly attitude which has been shown to us during the past year.

Respectfully submitted,

ELISABETH H. MASON,
J. E. LAROCHELLE, M. D.,
JAMES J. FEENEY.

Report of the Health Officer

Berlin, N. H., December 31, 1929.

To the Board of Health of the City of Berlin, N. H.:

I herewith have the honor to submit the nineteenth annual report of the Department of Health, covering the activities for the year ending December 31, 1929.

I wish to thank His Honor, the Mayor, the committee on Public Health, members of the City Council and members of the Board for their cooperation during the past year. I appreciate the courtesy of having been given the privilege of serving as Centennial Secretary during our Centennial Celebration.

VITAL STATISTICS

A record of vital statistics is one of the severest tests of a Department of Health. It is the means by which progress in public health may be traced from year to year, and from one administration to another. This can be accomplished only by a careful study of all phases of the vital statistics of the past, and by the application of lessons drawn from them to future methods of public health work.

POPULATION

Population is the basis of all vital statistics. It is determined by a national census taken every ten years, at the beginning of each decade. For the intercensual years it is necessary to depend upon estimates. Using the United States Census Bureau figures, the population of the City of Berlin on July 1, 1929, was 19,997.

Table No. 1.—Estimated Mid-Year Population Based on Census Figures for 1910 and 1920.

Year	Population	Census
1910	11,780	Census Figures
1920	16,104	Census Figures
1925	18,268	Estimated July 1st
1926	18,700	Estimated July 1st
1927	19,132	Estimated July 1st
1928	19,565	Estimated July 1st
1929	19,997	Estimated July 1st

BIRTHS

The registration of births as required by law, Chapter 285, Public Statutes, states that the attending physician, midwife or other person in charge, who shall attend, assist or advise of the birth of any child, living or stillborn, within the state, shall report to the clerk of the town, within six days thereafter, all the facts required by Paragraph 1, of Section 1. There were 530 living births reported to the City Clerk, during the year 1929, giving us a birth-rate of 26.5.

Table No. 2.—No. of Living Births and Rate per 1000 Population

Year	No. Births	Rate
1920	537	33.3
1925	515	28.1
1926	533	28.5
1927	572	29.9
1928	557	28.8
1929	530	26.5

STILLBIRTHS, 1929

If a child is born dead, that is, if it is a "still-birth" it is not considered by statisticians as a birth, although the Model Law requires that a still-birth be reported both as a birth and a death, in order to have the desired facts placed on file. When making up statistical tables, tables of births include only living births, and still-births are placed in a class by themselves. We had 16 still-births reported during 1929.

DEATHS, 1929

There were 188 resident deaths and 16 non-resident deaths from all causes during the year.

It is of interest to note that 20.7 per cent of all resident deaths were persons seventy years and over; 38.3 per cent were persons sixty years and over, and 18.6 per cent deaths for infants under one year of age.

Table No. 3.—Number of Deaths and Rates

Year	Deaths	Rate (Res. only)	Rate (Res. & Non-Res.)
1920	184		11.4
1925	160	8.7	9.7
1926	168	8.8	9.7
1927	192	10.0	11.5
1928	154	7.9	9.0
1929	188	9.4	10.2

Table No. 4.—Most Important Causes of Deaths.

Organic disease of the heart	29
Congenital debility, icterus and sclerema	13
Cerebral haemorrhage, apoplexy	11
Purulent infection and septicemia	10

INFANT MORTALITY

Infant mortality, or the number of infant deaths per thousand births during the year 1929, was 66.0.

Table No. 5.—Causes of Deaths, Infants Under One Year

Causes	No. of Deaths
Congenital debility, icterus and sclerema	13
Other causes peculiar to early infancy	6
Causes of death not well defined	3
Cerebral haemorrhage	3
Bronchopneumonia	2
Organic disease of the heart	2
Convulsions of infants	1
Purulent infection and septicemia	1
Simple meningitis	1
Disease of the larynx	1
Diarrhoea and enteritis	1
Accidents of pregnancy	1

Table No. 6.—Living Births, Deaths Under One Year, Rate per 1000 Births

Year	Births	Deaths (Under 1 year)	Rate (Per 1000 births)
1920	537	65	121.0
1925	515	45	87.3
1926	533	35	65.7
1927	572	55	96.2
1928	557	35	62.8
1929	530	35	66.0

DIVISION OF INFANT WELFARE AND CHILD HYGIENE

The following is a report of our Infant Welfare Nurse who works in cooperation with the Berlin Child Hygiene Association.

Annual Report

Infant Welfare	City Hall	East Side	Total
No. of babies under supervision.....	110	44	154
No. of babies in attendance to clinics..	1140	496	1636
No. of babies examined by physician..	848	459	1307
No. of new babies registered.....	147	56	203
No. of babies discharged.....	7	3	10
No. of babies transferred to Pre-School division	137	50	187
No. of deaths of supervised babies (over one week of age)—5.			
No. of deaths of unsupervised babies (over 1 week of age)—12			
No. of home visits.....	979	1081	2060
Pre-School			
No. of pre-school under supervision....			652
No. in attendance to clinic.....			197
No. examined by physician.....			151
No. of new patients			20
No. discharged			110
No. rec'd from Infant Welfare division			187
No. of deaths			6
Summary			
Total No. of clinics for the year.....			112
Total No. of children under supervision			806
Total No. of children found defective..			97
Total No. of defects corrected			15
Total No. of home visits.....			2060

JEANNETTE VAILLANCOURT, R. N.,

Infant Welfare and Child Hygiene Nurse.

COMMUNICABLE DISEASES

Five hundred eleven cases of communicable diseases were reported to this department during the past year. Prompt reporting of a case of communicable disease aids materially in the control of these diseases.

Table No. 8.—Shows number of cases reported monthly.

TUBERCULOSIS

For the purpose of stamping out tuberculosis, the New Hampshire Tuberculosis Association was organized and incorporated, this association works in coopeartion with the State and Local Board of Health. A free clinic conducted by Dr. Robert Deming of the Glencliff Sanatorium is held in our department once a month.

The following is Mrs. Emma B. Bigelow's report of the work done in Berlin during 1929. Twenty-five cases of this disease all forms, were reported.

NEW HAMPSHIRE TUBERCULOSIS ASSOCIATION, INC.

Statistical Report of the Work Done in Berlin, N. H., in 1929

Number of clinics held.....		24
Number of new cases examined		108
(A) Adults	76	
(B) Children	32	
Number of old cases examined.....		228
(A) Adults	174	
(B) Children	54	
Number of cases under supervision		136
Number of positive cases		86
(A) Adults	73	
(B) Children	13	
Number of suspicious cases		50
(A) Adults	28	
(B) Children	22	
Number of cases sent to Sanatorium		6
Number of cases arrested		21

Number of cases improved	103
Number of cases of tuberculosis reported	25
Number of deaths from tuberculosis of supervised patients	2

Year	Patients	Deaths
1926	172	4
1927	175	8
1928	151	2
1929	136	2

Respectfully submitted,

EMMA B. BIGELOW, R. N.,
N. H. Tuberculosis Ass'n Nurse

DIPHTHERIA

We feel that our crusade against this disease is beginning to show results. No cases of diphtheria were reported from our city during 1929. For the purpose of stamping out this disease free annual Diphtheria Toxin Antitoxin Clinics were started in January, 1928, two clinics were held during that year, due to the great amount of enthusiasm shown by the citizens. 788 children under twelve years of age were immunized. During the month of January, 1929, our second annual clinic was held at which time 225 children received the three injections.

SMALLPOX

There were no cases of smallpox reported in this city during the past year. There were 526 school children vaccinated during 1929 by our Medical Officer. Children who have been vaccinated through our department may obtain certificates of vaccination at any time.

SCARLET FEVER

Scarlet fever is regarded as one of the dreaded diseases of childhood, not only because an attack may be so malignant as to cause death in a short time, but also because of the many and grave complications with which it may be attended, and because of the hope of recovery, even in cases apparently mild at the outset, has proved too often illusary. 278 cases were reported during the year. From the total number of cases reported 113 were reported during October and November. The important step in the control of such a disease lies in the knowledge of its prevalence by the local

sanitary authorities. It is a public duty for anyone who may have knowledge of scarlet fever to report same. It is likewise the house holders' duty to observe scrupulously all regulations made by local health authorities in regard to the quarantine of scarlet fever cases.

MEASLES

Unfortunately we had one hundred and sixty (160) cases of measles reported during the past year, mostly all during the months of January and February, but through the temporary help of an additional nurse in our department we were able to check the disease prior to its taking an epidemic form.

LABORATORY WORK

The routine work of the laboratory consists of: The bacteriological and chemical analysis of milk, cream, ice cream and water supplies. The taking of swabs from throats of suspected diphtheria cases and to culture same. The examination of fixed slides for diphtheria and tubercle bacilli, and also smears for gonorrheal infections.

Microscopical Examinations

Disease	Total	Positive	Negative
Gonorrhea	52	9	43
Tuberculosis	23	0	23
Diphtheria	14	0	14
Bacteriological examination of water:			
City supply			11
Private sources			3
Samples forwarded to the State Laboratory:			
City supply			16
Private sources (springs and wells)			11
Chemical and bacteriological analysis of milk and cream:			
Milk (official)			68
Milk (unofficial)			10
Cream			11

MILK

The quality of the milk consumed in the city during the year 1929 has improved considerably. During the year two more dealers have seen the logic of pasteurizing all their milk before distri-

bution to their consumers. The McCready, Beaulac and Robichaud & Amero Dairies are now pasteurizing all their milk. Over twenty-five hundred quarts of pasteurized milk is now being consumed in our city.

Milk dealers' licenses issued..... 112
Milk producers' licenses issued..... 53

WATER

The water furnished to the city for drinking purposes during the past year was found of good quality, even though it was difficult at times to maintain it such due to the dry summer season.

GENERAL SANITATION

Our routine inspection of food stores, fruit stores, ice cream plants, candy stores, barber shops, bakeries, restaurants and hotels are usually made with the State Sanitary Inspector. We found that the proprietors of these places were careful to observe sanitary regulations. All complaints which are made to our department are investigated and suggestions made for corrections.

Respectfully sumbitted,

E. A. MARCOUX,
Health Officer.

Child Hygiene Association

Berlin, N. H., February 10, 1930.

To His Honor, the Mayor, and City Council of Berlin, N. H.:

Gentlemen:

For the purpose of keeping "well babies well" and discovering defects early, that they may also be corrected early in child life; the Berlin Child Hygiene Association was organized nine years ago.

Free Clinics have been maintained for this purpose each week for infants, and each month for the pre-school child on the East Side and at City Hall since.

The steadily increasing attendance, and the number of corrections made bespeak the value of the work.

Enclosed for your sight is a statement of the expenditures and receipts for 1929. The plan of work remains unchanged, and the 1930 budget is estimated to be the same.

Without the appropriation from your Honorable Body, the far reaching results of this work would have been crippled—and we ask your cooperation in granting a like sum for the work for 1930.

Respectfully submitted,

ESTHER A. UHLSCHOEFFER, President.
ETHEL M. GOEBEL, Secretary.

Report of General Centennial Committee

Berlin, N. H., December 31, 1929

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:

We have the honor to submit to the honorable body the report of the work accomplished by this committee during the Centennial Celebration.

On October 30, 1928, His Honor, the Mayor, appointed Councilmen Johnson, Ramsey, Rumney and Murphy as a committee to investigate the advisability of having a Centennial Celebration during the summer of 1929

On February 13, 1929, the above committee, at a regular meeting of the Mayor and City Council, reported favorably that the City of Berlin should celebrate its one hundredth anniversary. The same committee was re-appointed to take the necessary steps to form a centennial organization.

On March 14th a meeting was called by this committee comprised of His Honor the Mayor, members of the City Council and representatives from all local organizations. The purpose of this meeting was to elect a general chairman, secretary and treasurer As a result of this meeting E. Wesley Enman was elected Chairman, Eli A. Marcoux, Secretary, and W. H. Colbath, Treasurer. The General Chairman was instructed at this meeting to appoint four other citizens to serve on the general committee with the council committee The following citizens were appointed: Henry G. Gosselin, Patrick J. Hinchey, Thomas F. Houlihan and Joseph A. Larochelle.

After careful consideration the committee requested an appropriation of $20,000 which amount they felt would be necessary to carry on a celebration of this nature.

The General Committee wishes to thank the Chairmen and members of the different committees and every individual for their time and effort in making this celebration so successful.

The following is a summary of total receipts and disbursements:

Appropriation	$ 20,000.00
Major sports committee	2,279.15
Program committee	4,678.60
Concession committee	1,595.00
Dance committee	1,573.00
Pageant committee	999.50
Sale of badges	615.50
Sale of souvenir programs	656.61
Refund from woodsmen sport committee	40.00
Refund from entertainment committee	90.00
Rain insurance (J. A. Vaillancourt)	1,489.00
Centennial moving picture show	281.28
Rotary and Kiwanis Clubs—use of electric amplifiers	75.00
Refund from National Ticket Company	4.00
Refund from Metropolitan Booking Office	700.00
Refund from Twin State Gas & Electric Co. (As a donation	344.39
Credit from newspaper advertisements	225.00
Total receipts	$ 35,646.03
Total disbursements (Itemized in Treasurer's report)	35,427.89
Surplus	$ 218.14

Respectfully submitted,

E. WESLEY ENMAN,
General Chairman,
For the General Committee.

Report of Tax Collector

Berlin, N. H., January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:

I herewith submit my report as Tax Collector for the year ending January 31, 1930, as follows:

Property taxes not committed	7.75	
	$ 892.73	$ 892.73
Amount paid to Treasurer		$737,900.90
Balance due on Stock in Trade, Feb. 1, 1930		$ 1,244.48
Balance due on Poll Taxes, Feb. 1, 1930		264.00
Balance due City Feb. 1, 1930, for year 1929		$ 1,508.48

Taxes—1928.

Balance due City Feb. 1, 1929, for year 1928		$ 984.14
Amount collected	$ 787.19	
Amount abated	148.95	
	$ 936.14	$ 936.14
Interest collected	$ 17.11	
Poll taxes not committed	20.00	
	$ 37.11	$ 37.11
Amount paid to Treasurer		$ 973.25
Balance due City, Feb. 1, 1930, for year 1928		$ 48.00

Taxes—1927.			
Balance due City, Feb. 1, 1929, for year 1927		$	492.69
Amount collected	$ 244.64		
Amount abated	111.17		
	$ 355.81	$	355.81
Interest collected	14.60		14.60
Amount paid to Treasurer		$	370.41
Balance due City, Feb. 1, 1930, for year 1927		$	136.88
Taxes—1926.			
Balance due City, Feb. 1, 1929, for year 1926		$	180.70
Amount collected	$ 34.00		
Amount abated	146.70		
	$ 180.70	$	180.70
Poll taxes not committed.....	4.00	$	4.00
Amount paid Treasurer.....		$	184.70
Tax Sales.			
Amount collected	$ 8,999.02		
Interest collected	366.09		
Amount paid Treasurer	$ 9,365.11	$	9,365.11

Taxes—

Year	Balance due	Abated	Uncollected
1925	$5,002.60	$3,591.00	$1,411.60
1924	4,333.40	3,730.00	603.40
1923	4,321.41	2,785.00	1,536.41
1922	2,506.36	1,885.00	621.36
1921	1,501.02	1,030.00	471.02
1920	104.00	104.00	

Taxes on Stock in Trade for the year 1929, are coming in steadily but somewhat slowly, due to the general business depression of the past few months. A material reduction in the amount outstanding under this heading is to be expected in the near future.

Respectfully submitted,

JOHN A. LABRIE,
Tax Collector.

Report of City Treasurer

January 31, 1930.

To His Honor, the Mayor, and City Council of the City of Berlin:

FIFTH ANNUAL REPORT

OF THE

WATER WORKS

OF THE

CITY OF BERLIN, N. H.

FOR THE YEAR ENDING

DECEMBER 31, 1929

Berlin Water Board---1929

Chairman
GEORGE F. LOVETT

Clerk
JOHN J. O'CONNELL

MEMBERS OF THE BOARD

E. R. B. McGee, Mayor, Ex-officio.
Otto J. A. Dahl.....Term expires 1933
George F. Lovett .....Term expries 1932
Henry G. Gosselin .....Term expires 1931
John J. O'Connell.....Term expires 1930

Wallace Graves, Superintendent
Ernest E. Tankard, Assistant Superintendent
A. L. Sylvestre, Cashier

Report of Water Commissioners

January 31, 1930.

To the Mayor and City Council, Berlin, N. H.:

Gentlemen:-

It is again our duty and pleasure to render to your Honorable Body our yearly report of the progress and prosperity of the Water Department, and we are pleased to point out to you through the City Auditor's Report and that of our Superinendent, the financial condition of our Water System.

The past year has been a little below average in additions to water mains and naturally this falling off will begin to be more pronounced as the system nears one hundred per cent in installation capacity.

Aside from the East and West side connections by way of Y M. C. A. Bridge and grounds, and the Ramsey Hill gravity supply, which we plan to complete the coming season, our one outstanding task is to complete the storage reservoir at our Godfrey Dam on the Ammonoosuc, and we hope to be able to increase the capacity of this holding basin very materially the coming season. With this addition to our present reservoir capacity, our water supply system will be well adapted to our city's need for years to come.

Respectfully submitted,

GEORGE F. LOVETT,
OTTO J. A. DAHL,
HENRY G. GOSSELIN,
JOHN J. O'CONNOR,
EDWARD R. B. McGEE, Mayor,
(Mayor, member ex-officio)
Board of Water Commissioners

Report of Superintendent

To the Honorable Board of Water Commissioners:

Gentlemen:-

I have the honor to submit herewith the fifth annual report of the Water Department for the year ending December 31, 1929.

The department has laid 12,140 feet of new mains during the year.

The line which was recommended by the Health Department for the Hickey Heights has been completed and furnishes domestic service for twelve families.

One hundred and thirteen new services have been added to the system and carried to the property owner's line. Forty-five old services have been relaid during the year.

Twelve meters have been installed on new services and forty changed, making a total number of four hundred and fifty-two metered services, which means that about seventeen percent of the total number of services are now on meter. Seven new hydrants have been ordered by the City Council and placed by the department.

Since this year has been the dryest in our history it was found impractical for us to spend any money towards developing and cleaning out the basin of our new Godfrey Reservoir on the Ammonoosuc river. We are in hopes in the spring of next year to get an early start on this project which when completed will increase our storage facilities about thirty million gallons. At the present time storage capacity from this source is about two million gallons.

This year has given us many things to think about regarding our distribution system throughout the City.

One of the problems is fire protection for the so-called "East Side" of the Androscoggin river. The present supply line for this section is an eight inch line which takes its supply in a round about manner from the Berlin Mills transmission lines. During times of drought or fire, the pressure in this section drops off considerably,

so after careful consideration of this situation it was finally decided to run a twelve-inch cast iron pipe line from the fourteen-inch line on Willard Street across under the Y. M. C. A. Bridge via. of the Grand Trunk Railroad right of way, thence across the Y. M. C. A. field and up Coos street to Sullivan street to connect with the present eight-inch main. This job will require about 3,000 feet of pipe and will cost about $15,000. At the present time about 1,000 feet of this system has been installed and hope to complete the work by April first. The line will not only benefit the "East Side" of the river but will gridiron the Berlin Mills section, which at the present time is fed by only one ten-inch main.

Eight thousand dollars has been expended on our new 8-inch line which when completed will carry water from the regulator house to the Ramsey Hill section of this City and eliminate the use of the booster pump. This job when completed we estimate will cost $32,000.

In conclusion, I wish to thank His Honor, the Mayor, and Board of Water Commissioners for the hearty cooperation given me in performing my duties during the past year.

Respectfully sumbitted,

WALLACE GRAVES,
Superintendent.

WATER MAINS LAID FROM JAN. 1, 1929, TO JAN. 1, 1930

SUMMARY OF STATISTICS

For the Year Ending December 31, 1929.

BERLIN WATER WORKS

Coos County, N. H.

General Statistics

Population as of July 1, 1929—20,000.

Date of construction—Main construction, 1892,

Source of supply—Bean and Horn Brooks, Ammonoosuc River.

Mode of supply—Gravity, two emergency pumps located in industrial plants.

Statistics Relating to Distribution System

1. Kind of pipe—Cast iron, steel, wrought iron, copper and wood en stave.
2. Sizes—2 to 14 inch.
3. Extended during year—12140 feet.
4. Total now in use—38 miles.
5. Length of pipe less than 4-inch—15.5 miles.
6. Number of hydrants during the year—7.
7. Number of public hydrants—158.
8. Number of private hydrants—78.
9. Number of stop gates added during the year—14.
10. Number of stop gates now in use—407

11. Number of stop gates smaller than 4-inch—199.
12. Range of pressure on mains—30 to 150 pounds.

Statistics Relating to Services, Meters, Etc.

Services

1. Kind of pipe—Cast iron, wrought iron, steel, brass and copper.
2. Sizes—¾ to 6-inch.
3. Added for the year—113.
4. Total services now in use—2,639.

WATER WORKS

Meters

5. Number of meters added for 1929—12.
6. Numbers of meters now in use—459.
7. Percentage of services metered—17.

Pumping Statistics

Emergency pump at Brown Company Filter Plant.

Manufactured by D'Olier Centrifugal Pump & Machine Co.

Description—2-stage, centrifugal. Capacity—2,160,000 gallons per 24 hours.

Booster Pumps

1. Location—Corner Guilmette and Spring Streets.

Manufactured by the DeLaval Steam Turbne Company.

Description—Two single stage centrifugal pumps in series. Pumps from the distribution system into a 40,000 gallon storag tank on the heights.

2. Location—Near junction of Forbush Avenue and Kent Streets.

Manufactured by the DeLaval Steam Turbine Company.

Description—Single stage centrifugal. Direct connected to the distribution mains. Pumps into a 20,000 gallon storage tank.

Emergency Purification Equipment

Two Wallace and Tierman Chlorinators.

One located at Burgess Filter Plant.

One located at regulator house, Ammonoosuc.

WATER RATES

Flat Rates

For first family	$11.00
For second family	9.00
For third family	8.00

For fourth family	7.00
Bath tub	2.50
Water closet	5.00
Wash basin	2.50
Maximum rate covering private dwelling house occupied by one family	25.00
Offices and stores, faucet	10.00
Hand hose	4.00
Stable faucet	300
Each additional animal	1.00

Meter Rates

Service charge—$1.00 a quarter.

First 1,500 feet	$ .30
Next 3,500 feet	.22
Next 5,000 feet	.18
Next 10,000 feet	.15
Next 20,000 feet	.12
Over 40,000 feet	.10

TOOLS AND EQUIPMENT

One Sullivan air compressor.
One No. 4 3½ h. p. double diaphram gasoline pump.
Two No. 3 Edison diaphram pumps.
One electric thawing outfit.
One tool box on wheels.
One force pump.
Three blasting batteries.
One transit.
One pipe locator.
Three service box locators.
Two aquaphones.
One Hauck hydrant thawing outfit.
One gasoline pump and tank, capacity 225 gallons.
One Roe fall.
Two asbestos lead runners.
Two vises.
One grindstone.
One lead pot and ladle.
Two threewheel pipe cutters.
Four die stocks and dies.
One set scales.
One Mueller tapping machine.
Two hand saws.

One all pipe cutter.
Three wheelbarrows.
Three Jackhammers.
One spader.
Four sledge hammers.
Two striking hammers.
One fire pot wind shield.
Ten torches.
Twenty air hammer drills, one to five feet.
Two blasting chains.
One logging chain.
Four cant dogs.
Twelve hand drills.
Five crow bars.
Twenty-five picks.
Seventeen shovels.
Two bush scythes.
Two pair snowshoes.
Two hack saw frames.
Six diamond points.
Two cast iron pipe chisels.
Three two-foot pipe wrenches.
One eighteen-inch pipe wrench.
Two fourteen-inch pipe wrenches.
One two-foot monkey wrench.
One set chain tongs.
One W. S. Darley steam boiler.
One Engesser & Schuster thawing machine
One hydrant pump.
A. P. Smith tapping machine.
Meter testing outfit.
One Paving Breaker.

Auditor's Report on Waterworks

Berlin, N. H., January 14, 1930.

Board of Water Commissioners,
Berlin, New Hampshire.

Gentlemen:—

I beg to submit herewith, the annual report of the Berlin Water Works, as a result of an examination of its books and records for the year ended, December 31, 1929.

The balance sheet at the beginning of the period under review was examined and proven with the books. All cash received for this period was traced to the bank and duly accounted for, as well as the examination of all cancelled checks and supporting vouchers to verify all disbursements for the same period. The petty cash was personally counted January 9th, starting date of audit, and a reconcilation made with the bank as of that date, to prove cash in bank which was found correct.

The cash book, trial balance and all books of original entries were footed and a detail verification made of postings, all of which were found correct. The duly authorized abatements were examined and accounted for.

The amount of the outstanding accounts receivable, unpaid, as shown in General Ledger Controls and indicated in trial balance, December 31, 1929, was traced back to the customers card ledgers supporting same and found to be correct.

The accounting procedure is well founded and well conducted. The attached exhibits reflect the financial status of the Berlin Water Works as of December 31, 1929.

Exhibit A—Balance Sheet.

Exhibit B—Statement of Income and Expense.

Respectfully submitted,

W. A. NOONAN,
City Auditor.

EXHIBIT A.

Berlin Water Works. Balance Sheet, December 31, 1929.

Report of Finance Committee

To the Honorable City Council, City of Berlin, N. H.:

Gentlemen:-

The Committee on Finance herewith submits its financial report for the fiscal year ending January 31, 1930.

The books, accounts, vouchers and records have been carefully examined and audited by the city auditor whose report will be found elsewhere in this volume.

It is pleasing to note that, after the books were closed, we find a surplus of $204,423.31 cash on hand with no outstanding bills.

It may not be amiss, at this time, to mention the wonderful showing made by John A. Labrie, the present tax collector, who, during his four year term of office has outstanding taxes amounting to only $1,693.36, a record, second to none, in the history of the City.

Abatements of $13,125 of uncollected taxes for the years 1920-1921-1922-1923-1924 and 1925 have been made leaving only a small amount of uncollected taxes on the books.

The success of the past administration is due to the cooperation of the different departments of the City with the City Council.

We recommend the following appropriations for the next fiscal year to defray the expenses of the various departments of the City:

Band concerts	$ 500.00
Board of Health	7,000.00
Berlin Child Hygiene Ass'n	300.00
Bonds	65,000.00
Cemetery	600.00
City Hall	8,000.00
City Poor	8,000.00
County Tax	54,692.33
Election expenses	4,000.00
Fire Department	40,000.00

Forest fires	100.00
Grand Army	100.00
Hydrants	8,000.00
Interest	40,000.00
Library	9,000.00
Lighting streets	18,500.00
Miscellaneous	8,000.00
Parks and Playgrounds	1,500.00
Police Department	40,000.00
Printing and stationery	4,000.00
Public Works Department	130,000.00
Salaries	18,000.00
Schools	190,000.00
State tax	51,807.60

Respectfully submitted,

E. R. B. McGEE, Mayor,
B. J. RUMNEY,
J. ARTHUR SULLIVAN,
Committee on Finance.

Auditor's Report

February 14, 1930.

Honorable Mayor and City Council,
Berlin, New Hampshire.

Gentlemen:-

I beg to submit herewith the Financial Statement of the City of Berlin for the year ended Janaury 31, 1930, as a result of an examination of its books and records. The scope of this examination included the City Clerk, Clerk of the Municipal Court, Treasurer, Assessors and Tax Collectors accounts for the period under review. The following exhibits are appended:

Exhibit A Balance Sheet.
B Statement of Cash Receipts and Disbursements.
C Statement of Budget Control.

CITY CLERK'S ACCOUNT

Receipts for the Year Ended January 31, 1930

Auto Licenses	$ 23,477.04
Dog Licenses	1,207.30
Transfer Account	1,873.95
City Hall	359.00
Tax Sales	125.05
Public Works Department	5,437.10
Interest on Tax Sales	18.80
Cemetery	630.00
Miscellaneous	14.50
Fire Department	437.85
School Department	65.00
City Hall Rest Room and Comfort Station	56.30
Health Department	32.80
	$ 33,734.69

An examination of the City Clerk's books and records was made as to sources of all revenue of whatever nature, and the cash received therefrom duly accounted for. The auto registrations

dog licenses, taxi, truck and theatre licenses were examined to prove the receipts from these sources and were found correct.

The total receipts from the City Clerk as above listed were paid to the Treasurer, all of which were duly accounted for by him and credited to the respective departmental accounts.

CLERK OF THE MUNICIPAL COURT

Total receipts for the year ended January 31, 1930....	$ 18,236.24
Disbursements per vouchers	7,224.52
Net revenue	$ 11,011.72

The Court Cash Book was examined and footed and checked against the criminal docket as to all receipts, the expenses checked against vouchers all of which were found in order. The net revenue as above listed was paid to Treasurer and duly accounted for by him and credited to the Police Department.

EXHIBIT B—CITY TREASURER

STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS, FOR THE YEAR ENDED JANUARY 31, 1930.

CITY TREASURER'S ACCOUNT

The Cash Receipts and Disbursements as shown in Exhibit B were examined in detail and all cash accounted for and traced to the bank. Disbursements compared with supporting vouchers as approved for payment and authorized by City Council. The Treasurer's Cash Book was footed and all posting to the General Ledger were proven. The balance of cash on hand January 31, 1930, as shown by the Treasurer's Cash Account was $204,423.31.

CASH—$204,423.31.

The above Cash Balance was examined and verified by reconciliation with the City National Bank and Berlin National Bank as follows:

City National Bank, Balance per Bank Statement January 1930		$142,781.70
Less outstanding checks		15,040.18
		$127,741.52
To this should be added:		
Deposit of February 8, 1930		$ 76,681.79
Berlin Nat'l Bank, Balance per statement January 31, 1930	$ 222.62	
Less Outstanding Checks	222.62	000.00
Balance per Cash Account of City Treasurer		$204,423.31

The above deposit of February was verified with the City National Bank.

ASSESSORS

Total Taxes assessed per Tax Warrant $738,516.65

This amount has been committed to Tax Collector for Collection.

TAX COLLECTOR'S ACCOUNT

Taxes 1920 U. Duval, Collector, Balance due City Jan. 31, 1929	$ 104.00

Water Debt	660,000.00	
		$1,130,153.77

COMMENTS

The Tax Collector is to be commended in the excellent result he has accomplished in the collection of taxes during the year, and while I appreciate the Mayor and Council may have in mind further liquidation of the old back taxes as noted in the Balance Sheet, may I again refer to the subject matter pending final adjustment of these taxes this year.

I would again call your attention as I have in the past to the Accounting records necessary for the Assessing Department. With the present growth of the City this Department must eventually have such records as I have already recommended.

In conclusion I wish to express my appreciation of the many courtesies extended during my engagement.

Very respectfully,

W. A. NOONAN,
City Auditor.
